

# IGNANT TURLOCK WHITES DRIVE OUT JAPANESE LABORERS

## ORIENTALS FLEE FROM WRATH OF AMERICANS AS LABOR CLASH GRIPS CITY

Influx of Foreign Workers Results In Adoption of Deportation Plan

NO HARM DONE JAPS

Masked Men Swoop Down On Invaders At Midnight In Melon Picking Camps

TURLOCK, Cal., July 20.—A Japanese exodus was on here today.

Following deportation last night of 68 Japanese melon pickers here, between 500 and 700 Japanese laborers today were fleeing from the wrath of members of the white fruit pickers union whose jobs they had usurped.

Word of the midnight deportation spread quickly this morning among Japanese. Its effect was immediate. Within a short time scarcely a Oriental was in sight. Only a few Japanese who have leases and are working their own land, remained.

Fleeing From City  
Autoists, arriving here today, report fleeing Japanese on roads in all directions from Turlock.

About sixty white laborers took part in the deportation of the Japanese. No violence has been reported.

Twelve of the Japanese were deported from a number of shacks here. The others were rounded up on four ranches within a radius of four miles from the town.

About 400 Japanese laborers recently arrived here to work during the fruit season. About three hundred more were under contract and were beginning to arrive.

Seek C. of C. Support  
Protest was made yesterday to the chamber of commerce by W. C. Cook, representing the fruit pickers union, stating that the Japanese because of the small wages for which they would work, were taking the white pickers' jobs.

The chamber of commerce promptly passed a resolution stating that while plenty of white laborers were available they were entitled to the jobs.

This apparently was not strong enough for the white laborers, who took the case into their own hands, with the resultant deportations. "Trouble has been brewing all week since the influx of the Japanese began. And the continued hiring of Japanese by several large melon growers in preference to higher priced white labor, brought the matter to a head."

WASHINGTON EMBASSY MAY MAKE INVESTIGATION

SAN FRANCISCO, July 20.—Until an investigation of the facts surrounding the deportation of sixty-eight Japanese laborers from the Turlock district is made, no action will be taken, according to the Japanese consulate here today.

The consulate stated that it had thus far received only published reports of the affair, and that no direct protests had reached it from the Japanese refugees who are reported fleeing in every direction from the Turlock district.

In case of formal protests being lodged with the consulate, it is probable that the affair will be taken up by the Japanese embassy in Washington, it was intimated at the local consulate.

MODESTO, Cal., July 20.—Arous-

## TEXAS SOLONS PLAN TO BREAK UP KLAN AS MASKED RAIDERS ENFORCE OWN LAWS

AUSTIN, Tex., July 20.—The southwest today faced the problem of an invisible empire within itself. The Ku Klux Klan, originated in ancient Scotland and revived in the turbulent carpet bagging days of the old south, faced two proposed legislative resolutions, one aimed generally to remove the cause for its existence in Texas and another to investigate its objects and actions.

Technicalities of law handicapping prosecutions of criminal cases were described as the "cause of existence."

The resolutions were to be introduced in the Texas senate asking laws to be passed to break up the Klan which has grown in a few months to what is admitted to be the strongest secret organization in the new south-west.

Senator Edward Witt said he

## 2 Women Victims in Auto Crashes

S. F. Girl, 8, First Child To Fly Into Yosemite Park

United Press Leased Wire  
Yosemite, Cal., July 20.—Virginia Varney, aged 8 years, arrived at Yosemite Lodge today by airplane, the first child to ever fly into Yosemite Valley.

When Chief Ranger Townsley helped Virginia from the cockpit she carefully held her sawdust cat "Fuzzy" in her hand, declaring he was her mascot.

Virginia came with her mother in a bi-plane piloted by Andy Andrews of San Francisco.

Her father Walter T. Varney of San Francisco, arrived in a second plane, so that the entire family reached here in two hours and twenty minutes.

### "30" BULLETINS

COLUMBIA COUNTRY CLUB, CHEVY CHASE, Md., July 20.—Long Jim Barnes of Pelham, N. Y., made a new low score for the national open tournament today when he turned in a 69 for eighteen holes. George Duncan, brother star, playing with Barnes, made 72. Barnes' score is within one of the record, 68, set by Bobby Jones, of Atlanta, in practice here recently.

CLEVELAND, O., July 20.—New York today took first place in the American league pennant race when they defeated the Indians, 7 to 1, in the first game of their four-game series. The Yanks were on top of the heap by 4 points. The percentage was .640, while Cleveland's was .636.

WASHINGTON, July 20.—The senate today passed the Sweet bill consolidating under the direction of the treasury department all government activities on behalf of disabled veterans of the world war. The bill now goes back to the house.

LOS ANGELES, July 20.—Governor William D. Stephens this afternoon appointed Ralph T. Fisher, Oakland, as director of state institutions. The position was created under the new reorganization act. Fisher was formerly an official of the Associated Oil company.

WASHINGTON, July 20.—Unless congress takes action within a few days on the bill to prohibit use of beer as medicine, regulations governing the manufacture and use of beer as such will be issued and put into effect, David H. Blair, commissioner of internal revenue, said today.

### LEGION LANGUAGE CAMPAIGN APPROVED

INDIANAPOLIS, Ind., July 20.—That Catholics and Catholic school authorities in the United States are in full accord with the movement of the American Legion to make the English language the basic language in common schools, private, parochial and public, is the assertion of an official of the National Catholic Welfare council in a communication to American Legion headquarters at Indianapolis. The council is expected to officially endorse the Legion's language campaign at its coming conference.

Several states have adopted language laws and others are now considering the passage of such laws. A. C. Monahan, of Washington, D. C., director of the department of education of the National Catholic Welfare council, has written to Henry J. Ryan, director of the National Americanism commission of the American Legion, expressing it as his opinion that "the very great majority of Catholic people and Catholic school authorities are in full accord with the Legion's attempt to have language laws passed in every state."

The state of Maine has a law providing that the basic language of the common school branches of all schools shall be the English language. This law does not prohibit the teaching of foreign languages as a language. Monahan, in his communication, cites the Maine law as a model.

Masked men and others have taken part in thirty-four demonstrations in Texas this year. These demonstrations have included everything from gifts of charity to tar and feathering a white woman after she had been stripped of her clothing.

Police and other peace officials following an investigation, declared today that many of the assaults, whippings and tar and feather affairs of the last few months throughout the southwest are not the work of the bonafide Klan, but the work of small groups of men who worked under the guise of the white masks of the organization.

Masked men and others have participated in thirty-four demonstrations in Texas this year. These demonstrations have included everything from gifts of charity to tar and feathering a white woman after she had been stripped of her clothing.

Senator Edward Witt said he

## FRESH BLOWS IN BIG OIL STOCK BATTLE AIMED AT CHIEFS

Mandamus Writ May Be Asked To Oust Directors; 300 Folk Attend Meet

New blows to be delivered by Huntington Central Oil company stockholders in their battle with the directorate of the organization, were being prepared here today.

Backed by the advice of attorneys, men and women owning more than 500,000 shares were marshaling their forces to go into court, if necessary, to oust what they charge is the "family circle" management of the affairs of the company.

Attorney A. W. Rutan, Santa Ana, and members of the litigation committee, chosen at a stockholders' meeting at the junior high school here last night, were getting ready to meet tomorrow to investigate the advisability of instituting mandamus proceedings designed to force the present board of directors to call a new election at which only a majority rather than a two-thirds majority of the stock of the company would elect a new board.

Close to 300 men and women gathered last night to determine the best method to remove the present board of directors of the company.

Attorney Rutan, retained by the stockholders present, called for a poll of the shares represented. The total was 568,331.

Walter H. Sprague, Los Angeles, attorney for the Huntington Central Oil company and also a heavy stockholder, answered questions directed at him from the audience. He declared that the election of the board of directors required by the by-laws of the company had been purposely put off in order to perpetuate the present directors in office.

"I am of the opinion that the best way to remove the present board is by a writ of mandamus," said Sprague. "The polling of stock will require a two-thirds vote. A writ of mandamus, I believe, will force the board to call a new election where a mere majority may cause a removal of the 'family circle.'"

Committee Members  
On Rutan's advice a litigation committee of three, composed of G. M. Moraine, city manager of Alhambra; James H. Macklin, of Huntington Beach, and F. W. Faulkner, of Huntington Beach, was appointed to meet with the attorneys and investigate writ of mandamus procedure.

"I don't want to rush you into a lawsuit unless it is necessary," said Rutan. "I feel this is the best course to take, if it is feasible, but I want some of the stockholders to investigate the matter with me."

The motion to appoint the committee was carried unanimously.

The so-called "family circle" is composed of J. R. Woodward, S. C. Woodward, William Woodward, brothers, and William Sanford, brother-in-law, four of the six directors of the Huntington Central Oil company, one of the board of directors, who appeared before the stockholders Friday night and charged that he and F. W. Foster, the sixth director on the board, were figureheads and were never consulted by the Woodwards when business was transacted, was again presented last night.

Closson presented the figures on the bookkeeping company.

"I don't think you'll ever find anything wrong with their books," said Closson. "Everything seems all right. The great trouble has been that the controlling element of the board of directors has no technical skill except what it has acquired recently. I am of the opinion that you could give the present board of directors any amount of money and yet the wells would never get in a paying condition."

That the Woodwards, the "family circle," intended to stand firm, was the belief expressed by Attorney Rutan.

"I was in Los Angeles today," said Rutan, "and had a talk with Mr. Woodward. He was very courteous to me but gave me to understand that they would stand firm with the present board of directors and would affect no compromise."

A fund of \$250 was quickly raised at last night's meeting to defray expenses of the stockholders such as advertising, renting of halls, and paying attorney's fees. One hundred and thirty-six dollars was raised by subscription and the rest donated by J. H. Macklin of Huntington Beach.

Officers elected by the stockholders last night were H. J. Selway, chairman; Tarver Montgomery, secretary, and F. M. Robinson, treasurer.

## HOUSE VOTES DOWN AD VALOREM TAX ON LEATHER PRODUCTS

WASHINGTON, July 20.—Tariff duties, 10 per cent ad valorem on boots, shoes, harness and other leather products, proposed to compensate the 15 per cent duty on hides, recently inserted in the tariff bill, were defeated in the house late today, by a vote of 92 to 62.

The vote followed charges by various members that the leather and leather interests are now making extortionate profits by keeping up the price of their articles.

### PASSENGER STEAMER QUEEN CALLS HELP

SAN FRANCISCO, July 20.—The passenger liner Queen, en route between Portland, San Francisco and San Pedro, is reported broken down off Point Surr, near Monterey.

On receiving the vessel's distress call the tug Sea Monarch left here early this morning to render aid. The Queen has a large number of passengers aboard.

The vessel's engines are reported disabled. She will be towed in by the Sea Monarch.

### STRIP BABY BUGGY AS TOT IN HOSPITAL

LOS ANGELES, July 20.—Here's a brand new entry in the "meanest thief" contest.

A baby carriage, standing in front of the Children's hospital in Hollywood, was stripped of wheels and axles today while the baby had been taken in the hospital for treatment.

The carriage belonged to a poor family, W. E. Kimball, an attaché of the institution, reported to the police.

### BLAZE PERILS OIL FIELD NEAR TAMPCO

HOUSTON, Tex., July 20.—The entire Amatlan district in the Tampico, Mexico, fields was threatened with destruction by fire today, according to a message received here.

A 75,000-barrel oil well and a 25,000-cubic foot gas well were reported to have blown up yesterday and caught fire immediately.

TENTH TIME IN 39 YEARS.

PASADENA, July 20.—Only ten July in 39 years have recorded rain in this city. This is the tenth time. Rain began falling here gently shortly before 2 o'clock. The July record is .17 in 1893.

## The Press and the People

### Their Mutual Relations and Obligations

Under this heading the Register intends to have some heart-to-heart talks with its readers, in an endeavor to bring about a better understanding of each other's point of view.

A newspaper is something over and above the man who is in charge of it. Much of its success and its force and effect depend upon him, but editors have died and worms have eaten them and their newspapers have gone on from glory into glory.

A newspaper represents, in greater or less measure, the opinions, judgment and character of its editor. But it does more than that. It represents the consensus of opinion and judgment, the composite character of its constituents.

A newspaper is an entity. It has character and individuality—provided it be not a personal or political "organ." It has principles and policies which are greater and stronger than any man or set of men who may be at its head or compose its staff.

Men may come and men may go, but the real newspaper goes on forever.

Many people have most decidedly erroneous notions as to the fundamental functions of a NEWSPAPER.

AN ORGAN of any party or faction, clique or cabal, cannot possibly be a NEWSPAPER in any sense.

AN ORGAN never gives ALL the news, nor tells the truth about some of that it does give. It suppresses news on the one hand and manufactures it on the other, and colors it always to suit its own purposes. Thus, in the sense of giving the news, the ORGAN is worse than no newspaper at all.

In the matter of molding or leading public opinion, creating and shaping community sentiment, the ORGAN can accomplish very little. If it ever has any influence or prestige it soon loses it.

The ORGAN is especially useless in reaching and influencing the very people it wants and is expected to reach and influence—those whose views, opinions and judgments are at variance with its own; for such people do not read it, or if they do they do not believe what it says.

A NEWSPAPER must publish ALL the news and tell the truth about it.

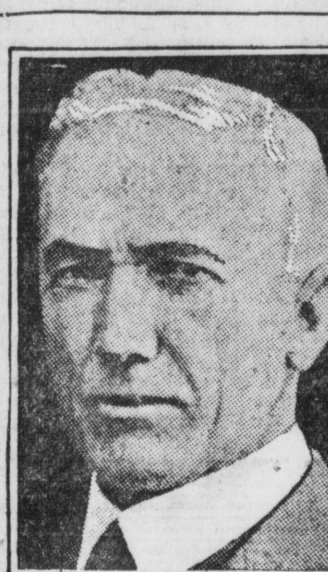

Such a NEWSPAPER is often misconstrued and misunderstood and unjustly judged for a time and by a few people, but it triumphs in the end. Its efforts to be fair and impartial are sometimes and by some people construed as straddling; this is especially so in communities where ORGANs have flourished and where intense partisanship prevails. In such communities a question treats the other side with fairness, its own side immediately construes its action as desertion, and the other side jumps to the conclusion that it has seen the error of its ways and is seeking to amend them. That is to say, a few of the most zealous partisans on each side view the matter in this light. BUT THE AVERAGE CITIZEN SEES IN THE PAPER'S COURSE ONLY THAT FAIRNESS AND INDEPENDENCE.

WHICH COMMANDS HIS RESPECT AND GAINS HIS CONFIDENCE.

Sometimes a paper is misjudging as to its motives when only its ability is at fault. Newspapers, like individuals, are circumscribed in their powers by limitations of ability and resources, financial and otherwise. A newspaper doesn't always have at its command the time and money, its space and staff are not always adequate to handle every situation as it ought to be handled. Moreover, the attitude of the public and men of affairs toward a newspaper is not always such as to enable it to obtain necessary reliable information in order that it may fully exploit every situation that may arise.

If intense partisans—and this is said with full appreciation of the devoted consecration of such men to the principles they advocate—if intense partisans could divest themselves of the obsessions from which they derive their force and power long enough to view the issue at stake in that impartial light in which the newspaper MUST VIEW IT IN ORDER TO SERVE IT, they would not so often fall into the error of unjust judgment.

### HE WINS A FORTUNE

Mrs. P. J. Mathews Dies In Community Hospital; L. A. Woman Near Death

One woman is dead and another is being treated for a possible fracture of the skull and other injuries, as the result of two separate automobile accidents here late yesterday afternoon and last night.

The woman who is dead is Mrs. Martha A. Mathews, aged 54, of East Seventeenth street, who was fatally injured at 8 o'clock last night when an automobile driven by Clarence Magg, of Fairhaven avenue, struck her as she was crossing the intersection of Grand avenue and Seventeenth street.

The woman who is being treated for injuries is Miss L. B. Doby, of the St. Maxon apartments, Burlington and Orange streets, Los Angeles, who was riding in an automobile that was struck last night at the corner of First street and Grand avenue at 5 o'clock by a large truck driven by A. C. Wright, South Raymond street, Fullerton.

Mrs. Mathews died at the Community hospital at 10:30 o'clock last night. Her skull was fractured and both arms were broken. She was taken to the hospital by Maag and Nick V. D. Broek, of Orange, who was with him at the time of the fatal accident.

Say Accident Unavoidable  
It is understood that the automobile belonged to Broek.

Maag and Broek stated today that they did not see Mrs. Mathews in time to avoid striking her. They declared that they were not speeding.

Sheriff C. E. Jackson today was investigating a report that Mrs. Mathews had \$55 in a purse which she was carrying at the time of the accident. When the purse was opened at the Community hospital there was but one \$1 bill and some small change.

P. J. Mathews, husband of the deceased, told Sheriff Jackson that his wife had been to the bank a few hours previous to the accident and that she withdrew about \$60. After paying a few bills she had at least

(Continued on Page Two)

### STRIKE SETTLEMENT NEAR AS UNIONS IN SPLIT OVER TERMS

SAN FRANCISCO, July 20.—A split in the Building Trades unions last night may be the first step toward settlement of the strike which has tied up building operations in this city since May 1, it was believed here today.

A committee of twenty-five members from the rank and file of practically all of the building trades unions met and organized last night with the announced intention of attempting a direct settlement of the strike with the builders exchange, which recently announced that it would henceforth only employ men under the "American plan," of open shop.

The move is generally interpreted as a repudiation of union leaders who have been conducting the strike.

### TI JUANA ROBBERY SUSPECTS CAPTURED

SAN DIEGO, July 20.—Ricardo Amavisca and Jose M. Lamayo, said to be two of the three bandits who robbed a wholesale liquor store at Tia Juana, Mexico, Monday afternoon, are in the county jail here today following their capture late yesterday afternoon while hiding under a bed in a Mexican woman's home in National City. The third bandit, named Trujillo, was killed in a running gun fight with Mexican soldiers. About \$2500 was found on Amavisca and Lamayo.

### ELECTRIC POWER FOR BIG BEAR VALLEY

SAN FRANCISCO, July 20.—Bear Valley Utility company, recently incorporated, filed a petition with the railroad commission today for a certificate of public necessity to build a power line and distributing system to supply Big Bear valley, eighteen miles northeast of Redlands, with electricity, and to issue 400 shares of capital stock at \$5 a share to finance the project.

The company proposes to buy its electric energy from the Southern Sierras Power company. The territory proposed to be served is described as a popular summer resort with a population from 3,000 to 8,000 in the vacation season. The company has a fifty-year franchise granted by the board of supervisors of San Bernardino county.

### APPORTIONMENT FOR SCHOOL FUNDS MADE

SACRAMENTO, July 20.—The last apportionment of school funds for the fiscal year ended June 30 has been made, it is announced by Job Wood Jr., deputy superintendent of public instruction. The unapportioned funds totaled \$231,860.41, and were distributed to the counties on a basis of \$17.50 per pupil in average daily attendance.

Los Angeles county will receive the largest amount, its allotment being \$66,207.52, computed on an average daily attendance of 95,267. San Francisco county, with an attendance of 42,779, will receive \$25,239.61; Alameda county, with an attendance of 38,194, will receive \$22,534.46. The next apportionment will be made on the basis of \$30 a pupil, it was stated.

### LOS ANGELES LEADS IN LABOR PLACEMENTS

SACRAMENTO, July 20.—A report made public here by John P. McLaughlin, state labor commissioner, for the fiscal year ending June 30, 1921, shows a total of 180,525 positions filled by the public employment bureaus of the state during the year. Of this number 149,529 were male placements and the balance of 30,996 were women.

This is a decrease of 26 per cent over the previous year, the report adds. A total of 243,866 were placed during 1920. In placements for the past year, Los Angeles led, with San Francisco second and Oakland third.

## ILLINOIS GOVERNOR UNDER INDICTMENT IN GRAFT INQUIRY

United Press Leased Wire  
SPRINGFIELD, Ill., July 20.—Len Small, Illinois governor, and Fred Sterling, lieutenant governor, were charged today with misuse of millions of dollars of state funds in indictments returned by the Sangamon County grand jury.

Voting of the indictments brought to a head the greatest political scandal in Illinois history.

La Verne Curtis, president of the Grant Park bank and close friend of Governor Small, was also indicted. La Verne succeeded his brother Senator Edward Curtis, as head of the bank. The bank was founded by the senator.

Not Sufficient Security  
The deposits were made to the Grant Park bank, while Governor Small was state treasurer and carried over under Sterling's administration without sufficient security, the state charges.

Evidence, on which the indictments were voted, involved the deposit of \$10,000,000 in an alleged "paper bank" which the state claimed was created for that purpose only by close political friends of Governor Small.

Here's List of Charges  
The state will endeavor to prove the following allegations when the Illinois executive goes on trial:

That the institution which received the deposit—the Grant Park bank—did not deposit securities to cover the deposit with the state.

That the money was loaned to the packing companies of Swift and Armour for an interest rate of eight per cent, while only two per cent was turned over to the state.

That each candidate for state treasurer was forced to sign receipts for the large sum before he could receive support of his organization in his race.

Supported by Thompson  
The investigation was started by members of Governor Small's own political party. It was in charge of Attorney General Edward Brundage. Although Brundage is a Republican, he is a member of the Lowden wing of the party while Small is an adherent of the faction headed by Mayor William Hale Thompson of Chicago.

Four indictments were returned. The first charged Sterling, Small and Curtis with embezzlement of \$700,000 in state funds.

The second accused the two officials and the banker with conspiracy and a confidence game in the misuse of \$2,000,000 of state money.

The third and fourth indictments charged Sterling and Small with misuse of \$700,000 and \$500,000 in state funds, respectively.

Bonds were placed at \$50,000 for each of the three men.

DELAY BOMBING TEST  
NORFOLK, Va., July 20.—The bombing tests scheduled for today off the coast were postponed due to unsettled weather. Word of the postponement was flashed to the army and navy airplanes just as they were preparing to bomb the former German battleship Ostfriesland.

## SENATORS GRILL TREASURY HEAD IN DEBT QUIZ

United Press Leased Wire  
WASHINGTON, July 20.—The United States government considers itself "under obligations" to foreign debtor nations to defer interest payments on their debts, Secretary of the Treasury Mellon today told the senate finance committee.

Mellon said he accepted as a binding obligation an understanding reached in 1919 in negotiations between an American treasury representative named Bathbone and a British representative named Blackette, that the interest would be deferred until 1922, at least. Former Secretary of the Treasury Houston said such an understanding or promise exists, Mellon said, and he took Houston's statement as binding.

Reed Criticizes Mellon  
Mellon himself had no discussion with other governments regarding deferment of interest, he said.

Senators Reed and La Follette demanded that Mellon produce at once memoranda notes and correspondence growing out of the Rathbone-Blackette negotiations. Mellon said the data was in treasury files, locked up in big wooden chests which had been carted to the committee room. Reed criticized Mellon, saying it was necessary to "corkscrew information out of him." A file clerk was put to work digging the information out of a chest.

Over Long Period  
La Follette and Reed brought out the fact that the Blackette-Rathbone negotiations resulted in framing of a plan to defer British interest for fifteen to thirty years. One-thirtieth of the accrued interest was to be paid the first year, one-thirtieth the second; one-fifteenth the next, and so on. The plan never was made binding, however, Mellon and Elliot Wadsworth, his assistant said.

Hitherto secret documents, furnished the committee today by Mellon, disclosed that on May 11 this year, Mellon sent the British ambassador in Washington a letter, and copies of a memorandum resulting from the Blackette-Rathbone conferences of 1919 and 1920.

# DANCING BEAUTY TO BE HONORED AT LAGUNA

Announcement was made today that the shore near Laguna Beach would be the scene of a so-called open air salon to be held next Friday in honor of Miss Olive Ann Alcorn, a classical dancer of Los Angeles, credited with having unusual perfection of face and figure.

The salon will call many prominent artists and other celebrities, who will crown Miss Alcorn with a wreath of laurel in recognition of her beauty, it was stated.

Among these celebrities will be Prince Paul Troubetzky, Jean Mannheim, F. Von Schneidman, J. Bond Francisco, Frank Colman and other qualified judges of the human form divine who have already passed judgment on the young dancer and found her well qualified to receive the golden apple of Paris.

Miss Alcorn attributes her reputed physical charms to natural living and the holding of beautiful thoughts, and holds out hope to those of mature years in the assertion that persistence along such lines can work wonders.

# GERMANY PAYS OVER 31,000,000 MARKS

PARIS, July 20.—The reparations commission has announced that the German government has just paid to it 31,000,000 gold marks in European currency on account of the three months' notes given in the latter part of May, in settlement of the 1,000,000 gold marks due before June 1.

Germany now has redeemed 114,949,000 marks, making a total of 275,376,000 marks paid on account of the 1,000,000,000 marks. The German government has informed the reparations commission that it is ready to remit immediately 41,000,000 marks more in European currency.

# GERMANS GIVEN PROPERTY AGAIN

PEKIN, July 20.—The restoration of enemy property to its original owners is now being carried on, according to an official in the government bureau in charge of this function.

The property now being given back is located in Nanking, Tientsin and Wu Chang. Similar action will be taken in the provinces of Yunnan, Sze Chuan, Kwantung and Hunan. The action means the first strengthening of the position of German merchants in China.

# RESERVE BANKS WILL AID COTTON GROWERS

WASHINGTON, July 20.—Further credit for harvesting and marketing the coming cotton crop will be extended in whatever amount may be required, it was announced here by the federal reserve board and the governors of the reserve banks of Richmond, Atlanta, Kansas City and Dallas.

# FISCAL YEAR'S ROAD BUDGET SUBMITTED

County Engineer J. L. McBride today submitted to County Clerk J. M. Backs his budget for the fiscal year 1921-22. The report will go to the board of supervisors at its next meeting. It will then be taken into consideration with reports from other county officers in figuring the tax rate for the year.

The statement of account for the second district road fund budget shows there was a balance of \$212.19 on hand July 1, 1921. The estimated revenue to accrue (32-cent tax rate) is \$29,645.18, and the estimated revenue to accrue on a 10-cent special assessment is \$9,264.12. This makes a total of \$39,121.49 for the second district.

The account for the third district shows there was a balance in the fund July 1, 1921, of \$17,550.26; estimated revenue to accrue, \$124,012.13, making a total estimated amount for the fiscal year of 1921-22, \$141,562.39.

The fourth district account shows a balance of \$12,046.36 on hand July 1, 1921; estimated revenue to accrue, \$27,945.67; total, \$39,992.03.

Fifth district account shows a balance of \$21,622.35; estimated revenue to accrue, \$50,586.22; auto license fund balance, \$587.96; total estimated amount for fiscal year, \$72,796.53.

The report shows the total bridge budget fund to be \$110,637, less a balance of \$45,710.48, or \$64,926.62, with the bridge fund rate fixed at \$0.055 per \$100.

# JAPANESE DEPORTED BY TURLOCK WHITES

(Continued from Page One)

ed by failure of the Turlock chamber of commerce to sanction a boycott against the Japanese, raiding parties at midnight loaded 68 Japanese laborers in Turlock onto trucks and drove them out of town.

The Japanese were taken to Keyes, an isolated station, where they were loaded onto a northbound train.

The Turlock men were angered by the fact that Orientals, working at lower wages, had forced whites out of jobs as fruit workers. The boycott would have been directed at all producers who employed Japanese labor.

The raiders were masked. They deported all Japanese they found except those who could produce land leases.

The trouble is an outcome of a dispute between the melon growers and the white melon pickers, the latter being organized in a union. The union rate for picking melons is 25 cents a crate. The Japanese laborers have been picking melons for 16 cents a crate. The farmers of the Turlock district were planning to import between 200 and 300 additional Japanese laborers, it is said.

It is charged that the deportations were conceived by the white workers in order to prevent this move, and to frighten Japanese laborers away.

# GRASS VALLEY COAL STRIKES AT AN END

GRASS VALLEY, July 20.—A strike and lockout of miners in this region, which affected more than 600 men, have ended, it is announced by representatives of both sides. In a meeting last night arbitration was accepted and an agreement was reached that the men return to work.

An arbitration board is to be appointed and its wage award will be made retroactive. The loss in wages due to the suspension of work is estimated at \$65,000.

# N. Y. FOLK VISITORS AFTER MOTOR JAUNT

Dr. and Mrs. R. E. Bush of New York city, and Mrs. Bush's sister, Mrs. H. Smith, and daughters, Shirley and Gertrude, of Brooklyn, are guests at St. Ann's Inn for a few days, while they rest following an automobile trip across the continent.

The party left New York city four weeks ago in a seven-passenger National car and stated that they found the entire trip a delightful one. They followed the Santa Fe route through the West and reached Los Angeles in time for the Elks' convention, during which they were guests at the Ambassador.

After a few days in Santa Ana they plan to go to San Diego and later will take the coast route to San Francisco and thence to Oregon and Washington. They will visit the Yellowstone and after a leisurely return trip across the continent as far as Duluth, they plan to send the car to New York city in care of their chauffeur and take a lake steamer down the Great Lakes, past Niagara Falls and down the St. Lawrence river. The members of the party express themselves as being in love with the charm of Santa Ana and the Inn and are enjoying the restfulness of their stay here after the excitement of convention week in Los Angeles.

Other guests now at the Inn include Mr. and Mrs. Gordon Dicks, Mr. and Mrs. Frank C. Spalding, T. C. Kistner, R. R. Curtis, motorists from San Diego; Mr. and Mrs. D. H. Frazer and son Jack, Redlands; R. E. Hayes, San Francisco; Mr. and Mrs. M. Graven, Misses Berenice and Helen Graven, Stockton; Mr. and Mrs. L. L. Moreau, Piedmont; Mr. and Mrs. J. Gordon Forbes, Claremont; W. G. Stebbins, O. H. Kleine, A. W. Fultz, Mr. and Mrs. Guy Eddie, C. F. Beprue, Monroe Walter, J. A. Moore, Los Angeles.

# SOUTHERN CALIFORNIA

LONG BEACH.—Organization of a university club in Long Beach has been completed. Officers of the club are John S. Crowder, president; Herbert M. Haskell, vice president; Dr. Edward P. Bailey, secretary, and Henry Schuman-Heink, treasurer. Membership is to be limited to 100.

CORONA.—A paper was circulated here for the purpose of raising \$200 to pay for two lots on the north side of East Sixth street, just east of the city park, to be donated to the United States government for use of the head ranger of the forestry service in this district. As the government will not furnish the money to build a home for the ranger at this time, the ranger suggested that the lots be turned over and he would at his own expense build a garage and office at once. This was done and the money was raised.

SAN BERNARDINO.—Newspaper comment is praising the new entertainment facilities installed at the Southern California State hospital at Patton. Just like the amusement park in many cities, an open-air amphitheater at the Southern California State hospital at Patton is furnishing entertainment to hundreds of patients; they are eating ice cream cones, and having a wonderful time listening to the music of the band, orchestra and entertainers, and watching the movies. It is a portion of the modern method of curing mental troubles.

SAN DIEGO.—One of the largest teaching forces in the history of the institution will take charge of the work at the combined State teachers' college and San Diego junior college when the school opens September 12. The larger personnel of the faculty will be due to the fact that the local junior college which has heretofore been a separate school, will be joined with what has been known as the State normal school under the new title of State teachers' college.

ALHAMBRA.—At the last meeting of the city commissioners, the question was brought up as to keeping the plunge at the new park open on Sunday afternoons, which was discussed fully. However, no action was taken by the council in the matter. Due to the many bathers each day since the opening of the plunge, more suits are needed. The plunge is clearing \$50 per day, it is said, is clearing \$50 a day, it is said.

RIVERSIDE.—The new road opened by the United States forest service between Barker Bench and Pine Bench, near the city of Banning, has recently been inspected by Fred Jensen, district forest ranger. The construction of the new road was taken over by the forest service last fall and completed during the winter. It is eleven miles in length and was built at a cost of approximately \$2500. Residents of Riverside and Banning co-operated in the move for construction of the highway.

# MAN IDENTIFIED AS MAIL TRUCK BANDIT

SIOUX FALLS, S. D., July 20.—John Blair, alias James Weston, taken into custody here last Thursday, was identified by postal authorities as the man who stole a mail truck in Jefferson City, Mo., March 1, and escaped with \$20,500. He will be taken to Jefferson City for trial.

Horticultural Commissioner Haupt of Kings county estimates shipment of 300 carloads of Elberta peaches.

# KIWANIS WILL AID CRIPPLED YOUNGSTER

The Santa Ana Kiwanis club today further exemplified its spirit of interest in welfare work by assuming the obligation of providing finances for the treatment of one crippled child in correction of a deformity, in co-operation with the Social service league.

Investigation has disclosed that there are at least eight cripples in this county whose parents or relatives cannot bear the expense of treatment.

Two Orange county children are now in an institution in Los Angeles for treatment and the Kiwanis club assumes responsibility for the expenses to pay hospital fees and the supplying of equipment needed, the expense being estimated at approximately \$116.

Doctors make no charges for their services.

Members will make voluntary contributions to the fund, and should there be a shortage it will be made up by funds from the club treasury.

A. N. Zerman, John Knox and E. T. Matter were appointed a welfare committee to which future welfare work will be referred before being brought into open meeting.

Organizer Westcott was present and announced that at the suggestion of District Governor Leslie Henry of Pasadena plans were being made for a joint meeting of the Kiwanis clubs of Santa Ana, Anaheim and Fullerton at Fullerton Wednesday noon of next week, when a full report on the recent national convention will be presented. Twenty-seven local members voted to attend the joint meeting, although next Wednesday's session of the local club is to be an evening open meeting at Laguna Beach. The local Kiwanians will gather at 302 Spurgeon street at 11:45 a. m. Wednesday to go to Fullerton.

Stanley Reid, chairman of the evening meeting at Laguna Beach, announced the program. It will be a "rube" affair—an old-fashioned country picnic. Prizes will be given for the best costumes worn both by men and women.

Action Deferred

Owing to the by-laws requiring written notice of two weeks in advance of a proposed date for voting on a change in the by-laws, action was not taken today on an increase in the dues and initiation fee of the club.

The financial report of the secretary and report of the auditing committee was received and filed.

City Marshal Sam Jernigan won the attendance prize, a thermos bottle, and will preside as chairman of the next meeting.

Herbert O. Davis was chairman. Walter W. Biddick, former secretary of the club, was present. He delivered a brief address in which he congratulated the members of the club on the fact that they are residents of Santa Ana.

Biddick is to be in this vicinity for two or three days and will attend a meeting of the Orange County Automobile Trades association next Friday evening at Huntington Beach. He formerly was secretary of the county organization and is now field secretary for the state association.

WOODLAND.—Mrs. Leander Turney of the Home Service bureau of the Yolo Red Cross chapter has received word from Miss Henrietta Koch of Berkeley of her definite acceptance of the position of public health nurse. She will assume her duties August 15.

CHICO.—Approval of the Chico auto camp is contained in a letter received by the city trustees from William Dickie, secretary of the state board of health. The sanitary equipment of the camp is declared in the letter to be everything that could be desired.

REDDING.—C. F. Clark, for the past two years city editor of the Courier-Free Press, has resigned his position to become effective on July 9. Clark has purchased a half interest in the Red Bluff Sentinel. His position here will be filled by Dudley Ashton of Oakland, who has been working on the copy desk of the Oakland Tribune.

# UP-STATE NEWS

OROVILLE.—The Butte county board of supervisors held a meeting for the purpose of opening bids for the reconstruction of the Paradise road between Paradise and Stirling City. As no bids were received instructions were issued to County Engineer H. H. Hume to proceed with his own plans for building the road.

# BULLETS FLY AT N. Y. HEARING: MAN DYING

United Press Leased Wire

BUFFALO, N. Y., July 20.—Chas. B. Reynolds, Buffalo, enraged at Deputy Commissioner Chas. K. Blatchly of the state industrial commission for not allowing him compensation under the workmen's compensation law, shot at the commissioner thrice today in the equity department of the supreme court.

Anthony Addarce, 40, who was testifying at the time of the shooting, was struck by a stray bullet in the back of the skull and probably fatally wounded.

The commissioner at the beginning of the shooting dodged behind a bench and was unharmed.

# INJURIES FATAL TO SANTA ANA WOMAN

(Continued from Page One)

\$35 left in the purse, according to Mathews.

Several persons crowded about the machine which struck Mrs. Mathews, but the authorities have been unable to account for the missing money.

WH Held Inquest

The body of Mrs. Mathews is at the Smith and Tuthill undertaking parlors. Coroner Charles D. Brown stated that he would hold an inquest, probably tomorrow afternoon.

Mrs. Mathews was the wife of P. J. Mathews, a retired business man. They have been residents of this city for 27 years and were well known in the community. Beside her husband, the deceased leaves one daughter, Mrs. M. A. Brockett, of Costa Mesa.

No arrangements for the funeral were announced today.

In addition to the possible fracture of the skull, Miss Doby suffered bad bruises and possible internal injuries.

She is at the Community hospital. She will probably recover, it was said.

Miss Doby was riding in a Ford motor car, driven by J. R. Lefty, of the Alvarado Hotel, Los Angeles, and owned by W. E. Harland, also of Los Angeles, when the car was struck.

Boy Renders Aid

Robert White, a Boy Scout and son of Everett A. White of this city, was one of the first persons to arrive at the scene of the accident. He was driving his father's automobile and had his little sister, Vivian, with him. The injured woman was placed in White's car and driven to the Community hospital by the youth.

Several persons who arrived on the scene soon after the accident, praised young White, who displayed a cool head and requested that he be permitted to take the injured woman to the hospital.

J. R. Lefty, driver of the car in which Miss Doby was riding, also accompanied her to the hospital. He was not seriously hurt himself although he sustained several bruises.

M. E. Furguson, 1313 First street, Santa Ana, an eye witness to the accident, said that the truck driver cut the corner and ran into the Ford which was going West on First.

William Duncan, a rancher of the Tustin district, was driving directly behind the Ford motor car and was also a witness to the accident.

By order of  
PRINCE L. TOPLER,  
High Priest.  
G. A. WHIDDEN, Secretary.

## TIDES OF JULY ARE SHOWN IN NEW TABLE

A table showing the hours for high and low tides at Newport Beach has been prepared by Leeds & Barnard, harbor engineers.

There is a difference of eight or ten minutes between the times as they actually come and the time given in the ordinary tide tables. The reason for this difference is the fact that the tide tables are made for either San Diego or San Pedro.

The table for the remainder of July follows:

July 21.....	4:29	10:35	3:54	9:53
22.....	4:30	10:36	3:55	9:54
23.....	4:31	10:37	3:56	9:55
24.....	4:32	10:38	3:57	9:56
25.....	4:33	10:39	3:58	9:57
26.....	4:34	10:40	3:59	9:58
27.....	4:35	10:41	4:00	9:59
28.....	4:36	10:42	4:01	10:00
29.....	4:37	10:43	4:02	10:01
30.....	4:38	10:44	4:03	10:02
31.....	4:39	10:45	4:04	10:03

Tides are placed in order of occurrence.  
Light figures a. m., black figures p. m.  
Comparison will show high and low.

## GUESTS AT ROSSMORE

Among the guests now registered at the New Rossmore hotel are Mr. and Mrs. Calvin Haas, Mr. and Mrs. F. A. Rhodes, San Diego; J. A. Tanen, Huntington Park; Walter I. May, W. L. Greer, L. W. Swan, D. M. Mullender, A. H. Baird, San Francisco; R. L. Johnson, Oakland; Mr. and Mrs. J. B. Quebe, Fresno; H. F. Mix, L. C. Schuster, Harvey Silvers, C. D. Furst, L. D. Tenen, Mr. and Mrs. Walter E. Doherty, William McElroy, A. V. Schwertner, W. H. Van Devere, F. Daniels, E. R. Pitt, O. N. Wright Jr., Ernest G. Fevrl, C. H. Marchant, C. R. Sutter, Los Angeles; I. Abrams, New York city; James Dennison, Cal-ego.

## SEEK REFERENDUM ON HOUSING LAW

SAN FRANCISCO, July 20.—Petitions to suspend by referendum the recently enacted housing act are being circulated by lumber interests throughout the state because of a construction of the law, which apparently prohibits the use of shingles on the roofs of buildings, representatives of these interests announced here. Between 30,000 and 40,000 names are necessary to make the petition effective.

While shingles on roofs are not directly barred by the law, it was stated, certain sections of the law when placed together, act to bar their use.

## THEOSOPHICAL FOLK SELECT FRESNO MAN

SEATTLE, July 20.—A. G. Frisbee, of Fresno, Cal., was the new member of the board of trustees elected by the American section of the Theosophical Society at the closing session of its annual convention here today.

Other trustees re-elected included C. F. Holland, Los Angeles.

How nice 't would be to see a tree  
Come walking down a city street!

## City and County

Santa Anans who formerly lived in the Middle West today momentarily expected an old-fashioned thunder storm to break over the city. Skies were overcast, the air was sultry and in fact the weather had all the earmarks that it bears "back East" when a gale is imminent. Shortly before 1 p. m. there was a little shower. Thunder storms in summer are a rarity in Southern California.

J. A. Smiley, of West Orange, who recently returned to the United States from Alaska and motored south from Seattle, writes from Colorado that he is having a wonderful trip and will soon be home.

Work of painting and re-decorating the interior of the Y. M. C. A. headquarters on the third floor of the First National bank building was today in full swing under the competent hand of Secretary R. R. Miller, who may truthfully if slangily be said to swing a wicked brush. The general color scheme chosen is battleship grey, which gives a pleasing effect in the airy rooms. The framework for the baskets will soon be in place and basket ball games may then be arranged for in the big room which will be devoted to gymnasium purposes.

Don't monkey with barrels! Two persons in a county have tried it recently, and both suffered fractured arms. Following the news that D. S. McClellan of Capistrano had sustained a broken arm when he fell from a barrel, word was received here today that Robert Barnett, of Cypress, suffered a fracture of the right forearm in a fall from a barrel. Barnett was "pulling" some impromptu circus stunts, it was said.

Special meetings of stockholders of the Milley-Keck Oil company of Huntington Beach will be held at 10 a. m., September 21, at the company's building, Block 1800 of Tract No. 12, Huntington Beach, and at 4 p. m. of the same day at Room 509, Union Oil building, Spring and Seventh, Los Angeles, according to announcement of the secretary. The meetings will be held for the purpose of voting on a proposal to increase the capital stock from \$1,000,000 to \$2,000,000.

The August camp of the Y. M. C. A. will be under the charge of A. J. Raitt, Y secretary of the northern division of the county, it was announced today. The camp will be in the Santiago canyon and will be divided into three sessions, August 10 to 13; August 16 to 19 and August 23 to 26. These short-term camps will be open to all Y boys and will cost the nominal sum of \$3.

Former residents of Illinois now living in Santa Ana and other sections of Orange county are anticipating the annual picnic of the Hoosiers which will be held Saturday, July 23, at Bixby park, Long Beach. Loyal to their adopted state, the Hoosiers yet retain a deep love for the state of their birth and welcome the opportunity to gather for a day of reminiscences. They will be addressed by many prominent men who were former Illinoisans, among them C. A. Buffum, mayor of Long Beach. Governor Stephens plans to be present and will speak. A basket dinner will be served. The picnic will be enjoyed at noon, supplemented by hot coffee furnished by the committee.

Two interesting new additions to the Newport Harbor Yacht club have just been announced in the names of President Warren C. Hard, and Edwin Denby, secretary of the navy. Their acceptance of life membership in the club followed the invitation extended by Commodore Claude G. Putnam and as a result, the club's fleet of more than 100 boats has added to it the Presidential yacht, the Mayflower, and the dreadnaught flagship of the navy. Already members of the club are anticipating the President's first visit to the coast at which time an elaborate aquatic carnival with all manner of sports and races will be staged.

Bids for the laying of a concrete floor in the athletic quarters at the high school were to be opened in the office of the board of education this afternoon at 2 o'clock. Specifications for the addition to the manual training building at the high school are now available. Bids submitted on the work will be opened there Wednesday, July 27, at 7:30 p. m.

Members of the recently organized citrus packers' union at Orange were today anticipating the presentation of their charter at a meeting to be held tonight at 7:30 o'clock at Barger's hall, Orange. Arrival of the charter had been expected for some time, it was stated, but unexplained circumstances had prevented its arrival.

## FOREST FIRE STILL

## IS BEYOND CONTROL

SAN FRANCISCO, July 20.—A fire in the Sequoia national forest in the vicinity of Havilah, Kern county, still is beyond control, but it is hoped to have it extinguished by tonight, the United States forest service here reports. More than 3000 acres had been burned over, according to the last report reaching here.  
A fire in the Sierra national forest in the vicinity of Grabners, Fresno county, has been brought under control after having burned eleven miles along the San Joaquin river.

## JAPAN WILL ASK PARLEY SCOPE TO BE BARED

WASHINGTON, July 20.—Japan will accept the American invitation for a discussion of the Pacific situation in the forthcoming disarmament conference here, if she is assured that the scope of this discussion will be definitely outlined before the actual meeting, according to authoritative Japanese quarters today.

BY FLOYD ALLEN

(Copyright, 1921, by United Press) LONDON, July 20.—The Y and Shantung settlements are accomplished facts and there is no need for a conference of the powers in connection with the proposed Washington disarmament parley, to revise them, Baron Hayashi, Japanese ambassador to Great Britain, declared today in an interview.

The ambassador discussed the linking of the "Pacific question" with the conference on disarmament.

Stating that he was expressing his personal opinion, he declared that many things which might be considered under the general topic of the "Pacific question" already have been settled by the Versailles treaty.

He reiterated Japan's hearty willingness to discuss limitation of armaments.

"What is the 'Pacific question'?" he asked.

"What is to be discussed?"

"That is the whole thing in a nutshell. Matters that possibly might be brought up as part of the 'Pacific question' already have been dealt with by the Versailles treaty.

"It is clear that such matters as Shantung, Yap, New Guinea and so forth, if raised, might result in a general conference on matters that have the status of accomplished facts."

The ambassador declared it was his opinion that a practical solution of all problems would be possible without interfering "with matters of principle already decided."

## TO BAR FIREARMS IN GAME PRESERVE

Beginning July 29, a recently enacted law which makes it a misdemeanor to carry firearms into a game preserve, will be rigidly enforced in the Cleveland game preserve, was the announcement made today by Game Warden Ed. Adkinson, and A. J. Berg, forest ranger of this district.

According to the two men, even the apparently harmless little .22 rifle will be prohibited and the camping and tourist parties entering the game refuge will be compelled to leave everything in the nature of arms outside.

The Cleveland refuge embraces the upper parts of the Trabuco and Santiago canyons and includes Saddleback mountain.

## SEEK HELP HERE IN FOREST FIRE FIGHT

A call for help in fighting a forest fire now raging in Dark canyon was received in Santa Ana today. It was stated that a number of men are planning to leave early tomorrow morning in response to the call which came from the forest ranger in that district who telephoned the range station that the fire had been blazing for several days. It was gaining headway steadily. It is accompanied by dense clouds of smoke, it was said.

The canyon, which lies on the north fork of the San Jacinto river, is a favorite camping ground for Santa Anans, who fear that its charms may be destroyed unless the fire is controlled at an early date.

## JAILED IN L. A. ON CAR THEFT CHARGE

Sheriff C. E. Jackson today received word from the sheriff's office in Los Angeles that Lloyd Baker, 24, had been wanted here for the theft of a Ford automobile belonging to P. L. Hayes, was under arrest and being held in the county jail.  
Baker, it was said, told the Los Angeles authorities that he lived at the Richlieu hotel in Santa Ana for three weeks and that he drove the car off with Hayes's permission. Baker told the officers he was making merchandise deliveries for Hayes.

When Baker was searched at the Los Angeles jail he had a bank book in his possession showing deposits in a local bank to the extent of \$32.

According to Sheriff Jackson, Baker has passed several checks in this city which have been returned marked "insufficient funds."

## SET TRIAL DATE OF ACCUSED MEXICAN

Cruz Oropeza, Mexican contractor of the Wintersburg district, was arraigned in the justice court here this morning on a charge of reckless driving preferred by J. L. Shepherd of Anaheim. His trial was set for 10 a. m., August 18.

According to Shepherd, Oropeza cut the corner of Fifth and Broadway July 10 and smashed into his machine, causing slight injuries to himself and wife.

Sydney Kimball, a member of the Santa Ana fire department, has been called as a witness for the trial.

Escondido, San Diego county, is considering an ordinance prohibiting keeping of goats in city limits.

The boys' agricultural club at Shafter, Kern county, has nearly finished its potato-growing contest.

## GIRL FOUND DAZED IN DENVER IS VICTIM OF AMNESIA, SAY M. D.'s

United Press Leased Wire  
DENVER, July 20.—Police and hospital authorities today continued their efforts to establish the identity of an apparently well educated and refined young woman who was taken to the hospital here a few days ago in an unconscious condition.

She was found in the corridors of the customs building.

On regaining consciousness the girl was uncertain about her name or where she was from. She said she thought her name was Helen Reed, and that her home was in Pittsburgh, Pa.

Persons who have called at the hospital have identified the girl as Helen Reed of Montana; Lenore Reid of Delmar, Tex., and Helen Reid of Tucson, Ariz.

Physicians believe the girl is suffering from amnesia caused by epilepsy or some form of hysteria.

## HERE ARE WINNERS IN WHO'S WHO RACE

Mrs. Augusta Strand, 501 West Fourth street, today was mailed a draft for \$25, first prize in the "Who Is Who" contest, recently completed in The Register. The second prize of \$15 went to Miss Ruth Mae Thomas, 425 West First street.

The other winners of prizes offered were:  
Third: Sanford Cole, 615 South Broadway, \$10 in pictures from the Gibson studio.  
Fourth: Miss Ruth Clewett, 1117 South Main, \$7.50 in pictures from the Rabe studio.

Fifth: Warren Hamilton, 1103 North Main, \$7.50 in pictures from the Smart studio.

Sixth: Winifred German, Garden Grove, \$2.50 in flowers from the Flower and Gift shop.

Seventh: Mrs. Kenneth Lee, Route 1, Garden Grove, \$2.50 in flowers from the Flower and Gift shop.

Eighth: Miss Gertrude Somers, Balboa, \$2.50 in flowers from the Flower and Gift shop.

Ninth: Mrs. Haskell, 601 East Walnut, \$1.75 in service at the Crystal cleaners.

Tenth: Stanley B. Reed, 412 Spurgeon building, \$1.75 in services at the Crystal cleaners.

## TELLS COST OF AIDING POOR IN COUNTY

County Aid Commissioner Walter Gregg has submitted to the board of supervisors his annual report of expenditures for out-relief for the fiscal year ending June 30, 1927.

The report shows that the county spent \$29,012.54 for groceries, rents, drugs and medical attention, transportation, funerals, etc., in behalf of families who were in dire need of assistance.

It also shows that the administrative expense of the county aid office was \$3,629.43. This brings the gross expenditures up to \$32,641.97. The sum of \$9,977.66 was refunded to the county by the State Orphans' aid, making the actual cost to the county for the year \$22,664.31.

This is an increase of \$3,468.84 over the previous year. The largest sum expended by the aid commissioner was for groceries. This figure is \$13,413.36, as compared with \$12,293.31 for the same period in the previous year.

Other sums expended were: Cash, \$8,454.48; rents, \$1,788.50; drugs and medical attention, \$2,107.65; transportation, \$341.35; burials, county, \$2,115.50; ex-soldiers, \$750; miscellaneous, \$41.70.

The administrative expense is listed as follows: Salaries, \$3,200.97; office supplies, \$113.34; field, etc., \$315.12.

A total of 376 persons were receiving relief from the county on January 7, 1927. 711 more were added to the list while 687 left the county. The list left 400, who were still receiving aid July 1, 1927.

## NIGHT RIDING BAND IN OKLAHOMA CITY?

OKLAHOMA CITY, July 20.—Investigation of an alleged branch of a secret night riding organization which he declared is in existence here, has been ordered by Mayor Walton in a communication to Carl Glitsch, chief of police.

Mayor Walton submitted the names of twenty-five prominent citizens who, he declared, are active in the organization.

## Thursday Only!

Ribbons

Plain Colors, Plaids and Dresden Patterns 39c

## GEORGIAN OPENS BITTER WAR ON RESERVE BOARD

United Press Leased Wire  
WASHINGTON, July 20.—"Big Chief" Tom Watson of Georgia started on the warpath today. With a grim smile as war paint and a keen-edged rhetorical tomahawk, he is after the scalp of the federal reserve board.

Since the advent of the Georgia frebrand in the senate his colleagues have expected the "outbreak" of the "chief" as his clerks call him with affectionate deference. Denounces Board.

The "war cry" of the "chief" was a resolution couched in the bitterest denunciatory terms directing President Harding to "fire" the present members of the board and replace them with "men of affairs" who are not to be "servants of Morgan, Standard Oil, packers, and other legalized marauders."

"I'm going to camp on their trail like a hungry coyote after a corpulent jackrabbit," declared the "chief." "And the coyote usually gets his meat."

Wears "Billed" Shirt.

The "chief" was in his tepee, sharpening his weapons—sorting a great mass of data relating to the federal reserve board—preparing for his first attack, when found by the correspondent of the United Press. He is typical of the anti-bellum south. Erect, immaculate in his tropical suit, billed shirt and black string bow tie, he gives a visit or a courtly bow and a hearty hand clasp.

"The criminal and arbitrary deflation of the currency by the reserve board," Senator Watson declared, "has cost the American people the amount of the German indemnity—\$32,000,000,000."

Blamed For Failures.

"The unscrupulous bunch of scoundrels who compose the board have caused 10,000 business failures, innumerable heartaches among formerly prosperous people, and the suicide of hundreds of citizens who have been reduced to desperation by the infamous policy of the board."

"They have done to America what German U-boats tried but failed to do—to sink the nation into the abyssal degradation of an autocrat's subjugation. The atrocious sinking of the Lusitania and the cold-blooded murder of 119 Americans was no worse in moral turpitude than has been the criminal policy of the board."

"The outcome, there can be but one—to get rid of the board. I have dedicated myself to that purpose."

### GROVE HOME BUILDERS FORM CORPORATION

Articles of incorporation for the Garden Grove Home Builders were on file in the county clerk's office here today. The papers have been returned from Sacramento and bear the official stamp of the secretary of state.

The association is to have its principal place of business in Garden Grove and will buy, sell, improve and rent real estate. The papers show the capital stock of the association to be \$100,000.

Directors of the incorporation are J. M. Woodworth, W. B. Harper, M. B. Allen, E. M. Dozier and F. M. Reafsnider, all of Garden Grove.

## TODAY IN CONGRESS

United Press Leased Wire

House  
Continues consideration of amendments to tariff bill.  
Bergdall committee expected to examine Captain Bruce Campbell, named by Mrs. Bergdall as the army officer to whom she paid \$5,000 for "higher ups."

Judiciary committee holds hearing on anti-lynching bill.

Interstate commerce committee continues hearings on maternity bill.

Merchant marine committee considers marine insurance legislation.

Joint senate and house agriculture committee continues inquiry into farm conditions.

Agriculture committee considers "filled milk" bill.

Census committee meets tonight to consider reapportionment legislation.

Senate  
Continues debate on Norris farmer export corporation bill.

Secretary of the Treasury Mellon appears before finance committee on refunding foreign debts.

Labor committee inquiry of Mingo mine war continues.  
Soldier relief hearing continues.

### POET MAKES BET OF \$5000 HE WILL KISS 1000 GIRLS ON HIKE

NEW YORK, July 20.—Girls between New York and San Francisco had better look out. Hugh and Malcolm Hardyman, two Britishers who have forsaken the old country for Greenwich Village, are on their way hiking it out to the Pacific coast, intent on watching the antics of a "titled" poet who bet them that he will kiss 1000 damsels en route or pay a forfeit of \$5000. His name is withheld. The modern Don Juan and his escort passed Yonkers today.

According to the terms of the bet, the trio may use any mode of travel except trains, provided that they pay no money for transportation.

### L. A. FILM STRIKE GROWS AS 850 QUIT

United Press Leased Wire  
LOS ANGELES, July 20.—With 850 skilled studio workers on strike today, and two more of the largest producing organizations slated for the "strike list" tomorrow, the impending general tie up of the motion picture industry loomed as an immediate probability.

The Universal and Robert Brinkton studios are to go on the "strike list" tomorrow, according to an announcement by Verne Ostendorf, secretary of the joint strike committee of the central labor council.

Both these companies are said to have followed the precedent of other producers and reduced wages \$1 a day for electricians, painters and carpenters.

The Buster Keaton and Hamilton White productions studios were the latest units to be added to the strike list, which already affected Famous Players-Lasky, Goldwyn, Fox, Hal Roach, Metro, Real Art and Century.

Water J. Reynolds, secretary of the Motion Picture Producers' association, was optimistic over the strike situation today, and predicted that the available non-union skilled labor would be able to care for the situation.

### ARREST MEXICAN IN BANK SWINDLE PLOT

United Press Leased Wire  
NEWBO LAREDO, Mex., July 20.—Jose Torres has been apprehended by Mexican federal authorities in Monterey, Nuevo Leon, charged with attempting to swindle Mexican and American banks of sums said to total \$50,000.

Torres is alleged to have forged the name of the National Bank of Nuevo Laredo, to a communication addressed to the Sada Paz, a bank at Monterey, stating that a \$10,000 bill of exchange had been sold Torres.

Telegraphic communications from the American bank revealed the falsity. Torres was arrested when he presented his false bill of exchange. Charges of similarly swindling three other banks in Monterey and Texas were lodged against him.

### PAIR OF SHOES MAY SOLVE MURDER CASE

United Press Leased Wire  
ROSEBURG, Ore., July 20.—The identity of the bullet-riddled, headless and charred body of a man found near here July 13 beneath the wreck of Dr. R. M. Brumfield's automobile depends, officers believe, upon the identification of a pair of shoes.

Selig, Myrtle Creek merchant, today again took up the task of determining whether the No. 7 Star brand shoes, found on the feet of the corpse, are the same as the pair of the same brand and size he sold to Dennis Russell several months before the tragedy.

Mrs. Brumfield testified yesterday that the doctor wore 8½ size shoes. Selig yesterday testified the corpse was wearing shoes similar to some he had sold Dennis Russell.

Latin ceased to be spoken by the people of Italy in the year 58 A. D. Weight for weight platinum is worth nearly four times as much as gold.

## PLAYER ACCUSES PALS IN TRIAL OF WHITE SOX

CHICAGO, July 20.—"Black Sox" defense, like a pack of angry wolves, sprung at the throat of Bill Burns, confessed baseball renegade, who admits he delivered the 1919 world series to "sure thing" gamblers, when the state's direct examination was completed. They realized that unless they shatter the damning evidence presented by Burns, their clients' liberty is in danger.

United Press Leased Wire  
CHICAGO, July 20.—"Bill" Burns testified today how gamblers tried to double cross players from whom they had bought the 1919 world series.

Burns, confessed baseball renegade, resumed the stand as state's witness in the case against seven former members of the White Sox charged with conspiring to "throw" the 1919 world series.

Fans leaned forward in their seats to catch every word that was being said about the men they once worshipped.

Said Cicotte 'For Sale'

They heard the allegation that Eddie Cicotte ran around New York with a "for sale" tag on the world series, and how gamblers made the purchase for \$100,000.

He recounted how "Kid" Gleason, the venerable White Sox manager, interfered with the "fixed" series.

When little Dickie Kerr was put in the pitcher's box in the third world series game instead of Cicotte.

Cicotte had agreed to lose the game. Burns testified, and the gamblers, led by Attell, placed large sums of money on Cincinnati to win.

This money was lost when Kerr went to the box and pitched a shut-out game.

Charge "Double Crossing" between the gamblers and the players ensued, according to Burns, during which the players were accused of "double crossing" the gamblers.

"Before the third game I went to Abe Attell," said Burns.

"I asked him for the \$20,000 he agreed to pay for the first game."

"He said \$10,000 was enough and that no more would be paid by Arnold Rothstein, a New York gambler, as he paid \$300,000 out in bets."

"Attell took me to a room where there were several gamblers. He lifted up a mattress and I took \$10,000 which was underneath."

The defense attorneys objected continuously as Burns told his story in a matter of fact way.

"When I took the \$10,000 I told Attell I didn't think the players would accept it," Burns continued.

"I tried to get Bill Mahang to take it to them but he wouldn't, so I did. Split \$10,000 Purse."

"Risberg, McMullen and other players were in the room. Cicotte and Gandil came in later."

"The players asked me if I had double-crossed them. I told them \$10,000 was all I had."

"I gave them the money and asked about the game the next day."

"I told them Attell wanted the Sox to win the third game because the odds were going against Chicago."

"He wanted small odds so they could bet on Cincinnati to win for the series."

### URGES FREEDOM FOR PHILIPPINE FOLK

United Press Leased Wire  
SHANGHAI, July 20.—Manuel Quezon, the Filipino leader, left today for the United States, via Japan. Quezon took occasion before leaving to deny reports that he had opposed the Wood-Forbes mission in the Philippine islands. He said he was confident that the report of the mission would be a liberal and not reactionary.

He stated that the majority of the Filipinos want an independent protectorate under the United States government. Necessary, however, they would be willing to take their chances on full independence without a protectorate.

The Filipinos are friends of the United States, Quezon said. "In case of a war in the Orient involving the United States the Philippine islands would raise an army of 1,000,000 to aid the cause, even if complete independence without a protectorate were granted."

### PHONE CALL GIVES CLUE IN KIDNAPING

United Press Leased Wire  
SHARON, Pa., July 20.—Police today speeded over the road to Franklin and Meadville in an attempt to apprehend Thomas M. Randolph, 32, and his supposed kidnapers, who have demanded \$50,000 ransom, demanded for his freedom.

Randolph was seen by an old acquaintance, less than ten miles from here yesterday and more than fifteen hours after his supposed abduction, police were informed. At that time he was driving his automobile and was accompanied by a man and a woman.

Just before dawn today Randolph telephoned his wife here from a hotel in Franklin. Police were notified to detain Randolph, but when they arrived at the hotel he had left and the chase began.

Randolph supposedly was kidnaped Monday night, when he disappeared. Yesterday morning his father received a letter signed "Kidnapers" demanding \$50,000.

Mrs. George Robinson, of El Nido, is the new home demonstration agent for Merced county.

The Kings County cannery is in full swing on apricots, 300 women and 170 men being employed.

## Betty Lou Goes Shopping

You know, I just adore shopping in Santa Ana. Jerry teases me about it, and says that if I had my way, I'd be renting a hall to tell people about the lovely things I've been buying here. But I'm going to fool Jerry. I'm going to write about my "finds" in the paper, so that the rest of you can share in my good fortune. And I do hope you'll enjoy your shopping as much as I do, for I feel that I can personally recommend every place I'm telling you about. BETTY.

At last I've won Jerry's permission to buy an electric stove. So this morning I went right down to the GRANGER ELECTRIC COMPANY'S and ordered my Standard Electric Cooker. It is the latest development in cooking by electricity, and doesn't require special installation, but can be connected with the electric light socket in a jiffy. And you can put your meal in the cooker, adjust the heat, and leave it till you're ready to serve.

I was looking for a pair of dancing pumps the other day, and I found something new at WALKINS' BOOTERY. They call them Vassar College Patent Dancing Oxfords, and they're so neat and comfortable, with their modish low heels, that I just fell in love with them. And they are straight from New York, too, and are all the rage there. Really, I'm afraid I'll never be willing to go back to high heels again.

Celeste says that everything is trimmed with beads in Paris now.

I was just heartick the other day when Anita pulled ink on her new frock. I didn't think it was possible to ever get the spots out, but Jerry said, "Oh, send it to the CRYSTAL CLEANING COMPANY—they can clean everything." And, sure enough, they did. I just called them on the phone and they sent right out for the dress and in no time it was back just like new. I thought it was wonderful, but Jerry says that was nothing for them. He always sends his suits there, because they use Benzol, and it leaves no odor.

You know I am just wild about "jazz," so is Anita, but Jerry, the old dear, only cares for what he calls "the better music." Consequently, when we came to buy a phonograph there was some discussion concerning the relative merits. Finally we compromised on a machine which would play all makes of records. Really I am so glad, for I don't believe there ever was another machine with the tone quality of our new PATHE. It's simply wonderful. And with the ability to play all makes of records, every one in the family is able to have his or her own particular favorites.

The other afternoon I finished my shopping earlier than usual, and decided to go to a show. I dropped in at the PRINCESS THEATER, and was delighted to find how cool and restful it is in there. You know the admission there is only 15 cents, though they run all the best pictures as soon as they're released. I always like to have the children go there, too, for the pictures are always clean and wholesome.

Have you tasted the new Orange Crush Ice Cream the EXCELSIOR CREAMERY is making? It's simply delicious.

We had some friends in for dinner the other day and I was so worried about getting something for dessert. Jerry said, "Hump! Why worry? Just phone to the Excelsior and have them send up some ice cream."

I did, and I was so glad I had. The cream was wonderfully cooling on a hot night, and everyone wanted to know just where we had ordered it.

We're getting new furniture for the sun parlor this week, and I found the dearest reed set in French grey at CHANDLER'S FURNITURE STORE. Anita simply worships it, and even Jerry admits that it makes the sun room the coziest place in the house. I'm going to persuade him to let me get some more new things from Chandler's, for they certainly do have beautiful furniture there, and the prices are so reasonable.

Anita has been teasing me for a new sport skirt for a week, so I finally yielded, and when she brought one home from SPICER'S, I was glad I had, for it was so girlish looking, and practical. Now she wants to get a jacket to wear with it, and I told her she might, if she gets it at Spicer's, for they certainly do know how to dress a growing girl there.

Last time I took Bobby to the dentist's I was simply worn out, and so was he. It was a hot afternoon, and I didn't see how I was going to be able to do the rest of my shopping, when we happened to pass JAMES' CONFECTIONERY. Bobby clamored for a "Choc Malt," so I ordered one, too. And would you believe it, that was the best drink I've had this summer! It was so rich and smooth, it just put new life into me. I'm certainly going to go to James' again soon.

My dear, I certainly learned something new today. I always had the idea that a lumber yard was a dirty, dusty old place, but I know better now. Jerry and I have been talking about building a pergola for some time, so today I went out to BARR'S to get prices on the lumber. Really, I was surprised indeed. Instead of a lot of dirt and dust I found a wonderfully clean and modern office, and they were so courteous to me, it was just as though I were in one of the stores. And do you know they have a wonderful building service. All sorts of plans and everything. And it is all free for anyone who cares to make use of it.

Celeste says that organdy dresses trimmed with bias folds of taffeta are the vogue now.

When I was driving 'cross Fourth street at Broadway today I almost had a collision. Really some people are so careless about their driving it makes me wonder there are not more accidents. However, I don't have to worry. Jerry has just joined the Auto Club for another year, and taken out new insurance for the car through their Indemnity Exchange. He says it is the best "Safety First" method he knows.

Jerry has been complaining lately that he gets so hot down at the office. So the other day I stopped in at the WARDROBE and bought him half a dozen suits of their cool summer underwear. The first day he wore one of them, he was enthusiastic, and said he hadn't been so cool all summer. After this he says he's going to commission me to do all his shopping at the Wardrobe.

Sun shades of every color and description, with the Japanese parasol in the lead, are being carried in Paris, says Celeste.

For the best food at the most reasonable prices, commend me to GERRARD BROTHERS. Really, I fairly gasp at the lowness of their prices every time I visit either of their stores. And things are arranged so conveniently. It's just like eating in a cafeteria. All one has to do is to walk around and select the articles desired, have them wrapped, and pay the cashier. It's an immense time saver.

One of Jerry's business friends from the east who is visiting us now was asking last night where he could find a really good public stenographer. Jerry and I didn't have any hesitation about recommending MRS. AUGUSTA STRAND, 412 Spurgeon Building. She has typed several of my papers for the club, and Jerry always has her do the extra work that his own secretary doesn't have time for.

The new color in Paris, according to Celeste, is "Sorrento Blue." It is the deep blue of the Mediterranean, and is especially beautiful in satin.

The last time Anita and I went for a long drive, when we came back we were dreadfully wind burned, and our hair was simply blown to pieces. I was in despair, for we were invited out for dinner, but Anita said "Come on, Mumsey, we can go up to THE HAIRGROW SHOP, 117½ E. 4th, and be done over in a jiffy. Their facials and shampoos take away the after effects of the windiest drive." We went up, and it certainly was a delightful surprise, the way they freshened us up.

I've been having so much trouble with our car lately, so Jerry told me to take it down to the ORANGE COUNTY IGNITION WORKS and have them look over the electrical equipment. I drove the car in, and sure enough they located the trouble immediately, and it was fixed in no time. Mr. Matthews gave me some good advice about coming in regularly for battery service, and in the future I'm certainly going to follow it.

Yesterday afternoon I was racking my brains for an idea as to what to serve for dessert at dinner. Suddenly I had a bright thought, and I ran down to BAKER'S BAKERY on Fourth street, and got a delicious Burnt Sugar cake. You should have seen how the family enjoyed it. I'm going to give them one of Baker's angel food cakes tonight. And Bobby is simply crazy over the home made Blackberry Jam I get there.

Speaking of bobbed hair, Celeste says Paris has set the stamp of approval and is wearing it short to show the ear.

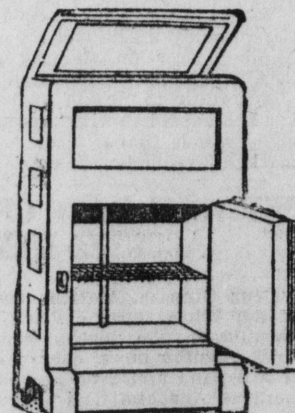

I was up in RABE'S STUDIO in the Spurgeon Building, yesterday, and I found that they are offering a new film service. If you get your films there, they will develop them for five cents a roll. And they use the new Crystallone printing process, too, that makes snaps come out wonderfully clear. The last ones I had done there, were so good that I've resolved to have them take care of all my photography work. 335 Spurgeon Building is their number, and it's well worth the trip upstairs.

We've decided to redecorate the house this fall, and Jerry reminded me this morning that I must be sure to drop in at MITCHELL'S and choose the wall paper. I got a can of paint, too, for Anita. She wants to paint herself a little footstool to match her bedroom set, and Patton's Paints, that they carry at Mitchell's are so easy to use.

The fall suit will have a long coat, writes Celeste, and will be trimmed with embroidery.

I was on a hunt for an organdy dress for Anita to wear to a garden party last week, and I'd looked everywhere, till I went to the UNIQUE, and found a dress that she was simply wild over. They have so many attractive dresses in their stock. I'm certainly going there when it comes time to get our fall togs. Their clerks are so courteous and obliging, too.

## Rotarians and Families Go Aboard Ship For Evening Frolic

On moonlit Newport bay, members of the Santa Ana Rotary club and their families last evening enjoyed one of the most delightful affairs in the history of the club. Aboard the Limit, the party set off from Rodgers wharf at 7:30 o'clock. The "cruise" was first to the entrance of the bay, then to a secluded spot toward the upper bay. There the boat was anchored and singing, that had been in progress almost continuously as the boat moved, ceased for a time while William H. Spurgeon, president of the club, conducted a brief business meeting in which a number of Rotarians were fined for offenses of a more or less previous nature. Some of them paid a cent a minute for being late to the boat.

Then came refreshments, macaroons and the fanciest of ice cream creations sent to the gathering by the Crescent Creamery company, of Los Angeles, whose manager is a Rotarian. Don Loveridge was in charge of the refreshments.

Charles D. Brown was chairman of the committee that arranged the entertainment. Under his genial direction, a program of singing, with Elmer E. Held leading in community singing, the Rotary quartet and Robert Brown giving special numbers, was carried out.

For the occasion, the Limit was decked out in special lighting supplied by Earl Matthews. A phonograph brought aboard by President Spurgeon fairly strained its voice in an effort to reach the far shores of the bay.

After nearly three hours of fun and entertainment, the party returned to Balboa, where those who cared to do so continued the evening's outing upon the floor of the pavilion.

## Neighborhood Party In Honor of Birthday

Lured away from home last evening on a "fake" errand, Mr. N. L. Kentch returned a short time later to find his home, 716 Cypress avenue, filled with neighbors and friends, gathered upon invitation of Mrs. Kentch, to help celebrate his fifty-first birthday. The surprise was complete and a jolly evening of games and social chat followed, with refreshments of ice cream and cake as a closing feature.

Besides the guest of honor and his wife, those enjoying the pleasant affair were:

Mr. and Mrs. J. L. Nelson and Richard Nelson, Mr. and Mrs. Dave Perry, Mr. and Mrs. William Friend and son, William Friend, Mrs. Mark Friend and three children, Mrs. Mary Friend, Mr. and Mrs. L. N. Kirkpatrick and son, Willis, Mr. and Mrs. Wayne Goble and baby, Miss Ellen Armstrong, Mr. and Mrs. Floyd Kentch and Mr. Mark Kentch.

## Personal

Mrs. G. E. Bruns and daughter Mrs. R. F. Cribaro, and little Miss Nellie Elizabeth Cribaro left yesterday morning over the Salt Lake railroad for a visit at their old home in Laclede, Mo. They will visit other relatives in Missouri and expect to be gone for several months.

Mr. and Mrs. J. C. Gilbank have gone to Calistano hot springs for a few days' recreation.

Miss Alice Burge, East First street, is in the Good Samaritan hospital, Los Angeles, recovering from an appendicitis operation, which was performed last Wednesday. Miss Burge is improving daily and it is hoped that she may return home within two weeks.

Mr. and Mrs. Roy Vincent have returned to Bear Valley to remain until business calls Mr. Vincent home.

Little Miss Anna Marie Dunlay of Los Angeles is spending a few days with Mrs. Mercedes Hardy of the Granger Electric company.

## Social Calendar

July 21.—Meeting, Past Noble Grand association of Torosa-Rebekah lodge 247, at home of Mrs. George E. Shriver, 715 North Main street, 2 p. m.

July 22.—Meeting, Woman's Relief Corps, at G. A. R. hall, 2 p. m.

July 22.—Picnic, Sedgwick social club, all day, at Birch park.

July 23.—Illinois picnic, at Bixby park, Long Beach.

July 23.—Picnic, Los Angeles Ohio society, East Rock park, all day.

July 23.—Indiana picnic, Exposition park, Los Angeles.

August 6.—Picnic, Nebraska state, at Bixby park, Long Beach, all day.

August 20.—Picnic, Missouri society of county, at Orange County park, pchops, sh sh shr shrshrduuu

## VENERABLE EDUCATOR RETIRED ON PENSION

SAN FRANCISCO, July 20.—Fifty-six years of continuous service as a school teacher and official in California, during which time he was absent from his duties only twelve days, though he went from one town to another and changed positions on various occasions, is the remarkable record of S. G. S. Dunbar, who was retired recently on pension by the state board of education. Dunbar is seventy-eight years old and had been principal of the Durant school of Oakland for thirty-four years.

## Mrs. Henry S. Greenwald Entertains For Bride-to-be

Miss Ruth Kohler, soon to be a bride, was the inspiration of a lovely miscellaneous shower, given last evening by Mrs. Henry S. Greenwald, at her home, 1210 West First street.

The evening progressed merrily with games and the presentation of the many pretty gifts for the "green box" of the bride-to-be. Dainty refreshments were served late in the evening to the following:

The happy honoree, Miss Kohler, Mesdames Edna Griffin, Florence Hager, Hucklebee, Christina Patton, the Misses Golda Lee, Edith and Lois McReynolds, Margaret Ball, Lois Gill, Alberta Greenwald, Mrs. E. R. Rabin, Margaret Kohler, Clara and Sadie Rutledge, Elma and Caroline Holm, and Margaret Cook; Messrs. Harold and Ralph Greenwald, the hostess and husband, Mr. and Mrs. Henry S. Greenwald.

The honoree, who recently graduated from the Orange county hospital, is to marry Mr. Willis Calderwood, of Whittier.

## Mrs. Roehm Entertains Club Members At Island Home

The members of the Fifth Household Economics section of the Eboli society had an enjoyable day with Mrs. E. R. Roehm, at her summer cottage on Balboa island, Monday.

The hostess served a palatable luncheon at tables under an awning in the garden. Thus, while protected from the sun, the diners enjoyed watching the activities on the bay.

During the afternoon fancywork and chatting were enjoyed by some of the ladies, while others took a dip in the briny.

Mrs. Roehm's guests were: Mesdames Otto Hahn, Jack Olvarri, Roy Boberg, E. B. Van Meter, J. Raymond Moncrief and daughter, Hester Lee, E. B. Trago, R. W. Townsend, Edward Walker, Henry Walter, Wiley, Good Adams, Herman Reuter, Cora Cavins and her houseguest, Mrs. W. R. Sylvestre.

## County Anniversary Club Enjoys Chicken Dinner

The Orange County Anniversary club met last night at the Blue Bird cafe, Anaheim, enjoyed a chicken dinner and indulged in its customary pleasing pastime.

## SACRAMENTO FAVORS TARIFF ON ALMONDS

SACRAMENTO, July 20.—The city commission of Sacramento has gone on record officially in favor of the five and fifteen cent tariff on almonds demanded of congress by 4000 California almond growers. In consonance with the action of the city commission, Mayor Albert Elkus has wired the ways and means committee of the house of representatives and all members of the California Congressional delegation advising them that California's 7,000,000 almond trees covering 100,000 acres of soil will wither from their present importance as one of the state's greatest horticultural pursuits to commercial insignificance unless the demands of the growers are granted.

This city is a center of almond growing in the state, and if congress grants an opportunity to the California almond grower to enter the American almond market, it is destined to become one of the great almond centers of the world. The \$300,000 shelling plant of the California Almond Growers' Exchange here is idle and will have to be abandoned with all its originally-designed machinery unless the growers' tariff demands are granted in the new tariff bill. The plant was built in the belief that the new Congress would appreciate the situation in which the California almond growers find themselves as a result of the tremendously increasing production of almonds in the state each year. The growers had planned a \$500,000 addition to the shelling plant, but these plans have been suspended indefinitely pending the outcome of the present fight in Washington.

## TO USE FIGS FOR CHILD MALNUTRITION

FRESNO, July 20.—Under-nourished children receiving treatment in the malnutrition clinics of the Tuberculosis associations throughout the United States, will be fed California figs this fall as a part of the recuperative diet. The use of figs in child malnutrition cases was recommended at the annual convention of the National Tuberculosis Association in New York this month. Official notification of the action of the convention was received here at the headquarters of the California Peach and Fig Growers from Mrs. E. L. M. Tate-Thompson, national secretary of the association of tuberculosis secretaries, composed of all state tuberculosis associations.

The malnutrition clinics are conducted in forty-eight states and five large cities for the purpose of providing nourishing food for underfed school children and are under the management of state Tuberculosis associations. The work affects 8,000,000 children in the United States and is a part of a national campaign to improve the health of American school children through proper feeding.

The adoption of the fruit was recommended to vary the diet, and, with bread and milk, figs will compose the malnutrition lunch for school children at the clinics.

Figs have been recognized as one of the most valuable fruit foods for years, and their adoption for use in the American schools comes with their availability in quantities through the establishment of large orchards on the Pacific coast.

Home made candies at home made prices. Nougats, fudges, creams, Lion Candy Kitchen, 211 West 4th.

## Life

Life is like a morning vapor,  
Quickly gone from human view,  
Rising to the vaulted heavens  
Back to that from which it grew.

So, like vapor, life will vanish,  
And our place will vacant be;  
Let us make quite sure of heaven,  
Our Life Giver's face to see.

Weaving threads of weal or woe  
Back and forth along life's journey;  
Oh, how swift the moments go!

Let us weave that some may profit  
After weaving days are o'er—  
Silken threads of love and mercy  
Helping them forevermore.

—Mathilda J. Olsen.

## San Francisco To Be Scene of National W. C. T. U. Convention

With several thousand delegates in attendance from every section of the United States, it is expected that the national convention of the Women's Christian Temperance Union, which will be in session in San Francisco from August 16 to August 23, will be the largest convention held there during the year.

In connection with the gathering an exposition in the Exposition auditorium, where more than 300 booths will be opened upon the first floor, is to be conducted simultaneously. Those in charge of the exposition arrangements have announced that the counties of the central and northern sections of the state will be represented, as well as manufacturers whose products are of especial interest to women.

Hotel reservations for the delegates, who are expected to arrive by special trains, are already being made.

Miss Emily Cox, 706 Bush street, is to be the delegate of the Orange County W. C. T. U.

## Enjoys Wiener Roast On Sands At Laguna

Dr. and Mrs. J. M. Raugh, Mrs. Maude A. Miller and Mrs. Charles Jacobs and daughter, Lorraine, motored to Laguna beach last evening and after a dip in the briny, had a "wienie" bake on the beach.

Mrs. Jacobs and Lorraine are from Iowa and are visiting friends and relatives here. They expect to go to their summer cottage at Lake Okaboji, Iowa, next week.

## HEARING ON VINEGAR LABELLING ANNOUNCED

WASHINGTON, July 20.—The Secretary of Agriculture announces that a hearing to discuss the labeling of vinegar, particularly the product made from dried apple chops, and dried skins and cores, or a mixture of these materials, will be held at his office on Wednesday, August 17, 1927, at 10 a. m. The trade and other parties interested are invited to attend and present their views on this subject orally or in writing.

The department has for some time past been giving consideration to the labeling of the products made from dried apple chops, and apple cores and skins, or from mixtures of these, according to the department's specialties. Food Inspection Decision 140, which relates to the labeling of vinegar, regards the term "apple vinegar" as synonymous, and also requires that an article made from dried apple products shall be labeled to show the material from which it is produced.

The purpose of this hearing is to determine on the basis of the information acquired and the evidence submitted not only the proper nomenclature for vinegar made wholly or in part from dried apple products, but also the extent to which a differentiation between the terms "apple vinegar" and "cider vinegar" may be justified.

## FERTILIZER PAMPHLET

BERKELEY, July 20.—A pamphlet on "Green Manuring in California" has just been issued by the University of California as circular No. 110 of the agricultural experiment station. The pamphlet, which is the work of J. W. Nelson, associate professor of agricultural extension, outlines the methods and benefits of the process as employed in California. It will be sent free upon application to the agricultural experiment station, University of California.

THE HOUSEWIFE OF 1921  
Now that Woman's Suffrage is a reality the American woman must henceforth be considered not merely as a housekeeper and home-maker, but as a voter—a citizen and a force in this busy work-a-day world. With added responsibilities, health should never be neglected, and when beset with ailments peculiar to her sex she owes it to herself to first give that grand old medicine, Lydia E. Pinkham's Vegetable Compound, a trial, as for over forty years it has been the standby of American women in restoring them to health and strength.—Adv.

## Women's Auxiliary To The American Legion Elects Convention Delegates

The following were elected as delegates and alternates to the state convention of the Women's Auxiliary to the American Legion, which is to be held in conjunction with the American Legion convention at Yosemite, on August 22, 23, 24 and 25:

Delegates, Mrs. Fanny Reeves, Mrs. Harold Nelson, Mrs. Julia Saunby, and Dr. Peryl McGill; alternates, the Misses Margaret Esau, Julia McGill, Ruth Stewart, and Louise Tubbs.

These delegates were elected at the regular meeting of the auxiliary, held yesterday afternoon at the American Legion headquarters, and was one of many important matters presented.

The president, Mrs. Julia Saunby, appointed the Misses Louise Tubbs and Ruth Stewart as part of a committee to help the Legion with the musical comedy they expect to present here next fall. The remainder of the committee will be chosen by Miss Tubbs and Miss Stewart.

The question of helping the Fremont American Legion Post, of the Palo Alto hospital, was discussed, but it was decided to defer final decision until the next meeting.

The Fremont Post has devoted all its attention, as well as funds, to the welfare of the World War veterans there in the hospital, with the result that they have absolutely nothing in the way of a meeting place or other things that other Legion posts have, and it is for this purpose that the local auxiliary wishes to help.

Dr. Peryl McGill, Mrs. Thomas Willits, Mrs. Harold Nelson, Miss Louise Tubbs and Miss Ruth Stewart were appointed as a committee to arrange some means of entertainment to raise money to send the delegates to the state convention. A box social and dances were two of the means suggested.

It was decided to omit the afternoon meetings of the auxiliary during August and September and also the executive board meetings during August.

Following the meeting yesterday Mrs. Fanny Reeves, T. A. Winbiller and John Wehrly poured tea.

## Epworth Leaguers Hold Many July Meetings

July is a significant month for the Epworth leaguers, the entire month being given over to conferences in various sections of Southern Methodism, according to information received from Epworth league headquarters at Nashville, Tenn.

The first of these gatherings was held at Lake Judiska, N. C., June 30-July 10. Other meetings are scheduled as follows: July 10-20, Sierra, California, Dr. F. S. Parker in charge; July 11-15, Perte Springs, Mo., Miss Helen Hardy, director; July 15-22, Prescott, Ariz.; July 18-21, Ashland, Va., Otis Branstetter and W. K. Cunningham, leaders; July 19-21, Arcadia, Mo., Miss Helen Hardy and H. P. Jones, leaders; July 25-28, Eldorado, Ill., Miss Helen Hardy and Miss Jessie Bloodworth, leaders; July 25-August 1, Mt. Hermon, California, E. V. Jones, leader.

There are approximately 4,000 Epworth league chapters in Southern Methodist territory, with a membership of 150,000 young people between the ages of sixteen and thirty. During the recent church-wide appeal for 5,000 life service volunteers the Epworth league furnished a large number of candidates for the ministry and mission fields.

Dr. Magill, Osteopathy. Phone 956W

## Beautiful Wedding Service Unites Popular Young Folks at W. E. Otis Home

Yesterday afternoon, at 4 o'clock, a simple but beautiful wedding took place at the home of Mr. and Mrs. W. E. Otis, 1330 North Main street, when Miss Wortha Joy Merritt, daughter of the late Worth and Jessie Fisher Merritt, of Indianapolis, Indiana, and Spring Valley, California, was united in marriage to Mr. Roy Harris, son of Mr. and Mrs. William H. Harris, of National City. Guests were present from San Diego, Los Angeles, Fullerton, Anaheim, Ventura and Claremont, and the Rev. P. F. Schrock performed the ceremony.

The long living-room was decorated with palms, ferns and hydrangeas, and the dining-room lent itself charmingly to the color scheme of white and gold, with a profusion of maiden hair fern.

The bride was most becomingly gowned in white georgette over white satin, wearing the wedding veil of her matron of honor and dearest friend, Mrs. Harold Burt, of Claremont, who used it on the occasion of her own wedding just three weeks ago.

The groom was accompanied by his brother, Mr. Evan Harris, of Ventura, as best man.

After the wedding supper the happy pair left by automobile on the first stage of their journey to Boston, Massachusetts, where they are to make their future home, midst a shower of confetti and the heartfelt good wishes of the friends and relatives who love the bride so well.

## Past Noble Grands of Torosa-Rebekah To Meet

The members of the Past Noble Grand association of the Torosa-Rebekah lodge No. 247 will meet at the home of Mrs. George E. Shriver, 715 North Main street, tomorrow afternoon, at 2 o'clock. Every member is urged to be present.

## Theatres

The special summer Meiklejohn and Dunn vaudeville road show which was given at the Yost theater last night lived up to all the advance notices regarding the caliber of the program presented.

Contrary to all precedent, the first honors went to a dancing act Mary, Rose and Violet. They were graceful and altogether charming not only with their dancing but with the singing numbers.

Mathews and Ayres, direct from the Orpheum circuit with their comedy, "The Stingiest Man," provoked much laughter and merriment and the audience was loath to let them go. Pieler and Schofield, another Orpheum act entitled "Helping Hubby," proved to be rather a comedy novelty but it was entertaining. MacLane, the fourth act on the bill, proved to be another comedian with a great line of stories, songs and chatter.

"It is just such variety bills as Meiklejohn and Dunn are sending to Santa Ana that makes vaudeville worth while," said Manager E. D. Yost. "The bill this week, which will be presented tonight for the last time, includes only attractions that have played the larger circuits."

The feature picture being shown on the same program, "The Miracle of Manhattan," stars beautiful Elaine Hammerstein and is one of the prettiest pictures of the year.

Phone 237 for good dairy products.

### ATTENDANCE SLUMP HITS TEAM OWNERS

New York Clubs Playing Before Small Crowds At Polo Grounds

NEW YORK, July 20.—Club owners are beginning to get concerned over the decrease in attendance at the major league ball yards. The 1921 season got away well and until the first of June the crowds equalled the record breaking attendance of 1920. Then the slump came. The Polo Grounds where the two New York clubs make their home, has been giving unmistakable evidence that interest in the national pastime is falling off. Crowds of 5,000 and less now sit in on the daily games where 10,000 were only fair last year. This, too, despite the fact that both the Giants and the Yanks are up in the race.

Games Too Long  
Some of the wise followers of the game blame the slump on the "lively ball," which is making the games much longer and less interesting. It is a fact that where games last year used to be played in an hour and a half to two hours, nine innings now run much longer and the spectators begin to file out to the subway and the elevated around the seventh inning.

Others maintain that baseball was lucky to be so late in getting a wallop by a general business slump. It seems more reasonable to believe that the fans are staying away from the parks because they have other places for a dollar. The tight financial condition of the country is shown in the bleachers. During times of prosperity the bleachers are almost deserted on the Polo grounds but it has been noticeable that the seats out in the sun are more popular than the higher priced seats in the grandstand.

Baseball and the theatrical world have a lot in common in New York. The same element that fills the theaters swells the crowds at the baseball games. There is a lot of significance in the fact that the gay white way in the "Forties" is having the same slump as the Polo grounds.

"The Follies" is the only show on Broadway doing good business. Other shows are playing to half houses every night. Tickets are available for every show in New York but the famous "Follies" show at a cut-rate ticket agency, where the managers dispose of tickets below the box office price.

It means nothing that Tex Rickard gets \$1,000,000 from 90,000 spectators who saw the Dempsey-Carpentier fight. Such a sport spectacle will draw a crowd any time in any place near such a nest of population.

It is not generally known, however, that Rickard, seeing the slump in baseball and around the theaters was a rather worried person just previous to the fight. His tickets weren't going, and as late as eleven o'clock on the morning of the fight he wasn't sure that he was going to have enough fans in the big stadium to give him even a slight return for all his time and trouble.

### SEATTLEITES DUMP LOS ANGELES TEAM

LOS ANGELES, July 20.—The Angels were easy for Seattle yesterday in the opening game of the series, the visitors winning by the top heavy score of 11 to 3. Seattle slugs hammered Lyons and Dumovich for a total of fourteen hits. Jacobs was also hit hard, but kept the Angel blows well scattered. Seattle..... 11 14 0  
Los Angeles..... 3 11 5  
Seattle—Jacobs and Adams; Los Angeles, Lyons, Dumovich and Baldwin.

TIGERS SMACK SOLONS  
SACRAMENTO, July 20.—Vernon won the first game of the series here yesterday, defeating Sacramento with ease by a score of 7 to 2. Pittery was ineffective, while Shellenback was tight in the pinches. Vernon..... 7 14 1  
Sacramento..... 2 7 1  
Vernon—Shellenback and Hannah; Sacramento, Pittery and Elliott.

SAME OLD STORY  
SALT LAKE CITY, July 20.—The Oaks took the opening game of the series here yesterday, 11 to 7. Seven of the visitors' runs were due to home-run drives, one by Miller accounting for two, one by Krause for three, and one by Arlett for two. Poor base running prevented the Bees from tying the score in the sixth inning. Salt Lake..... 11 14 1  
Oaks..... 7 13 4  
Oaks—Krause, Arlett and Koehler, Mitze; Salt Lake, Kallio, Bromley, Gould and Byler, Jenkins.

SEALS DOWN PORTLAND  
SAN FRANCISCO, July 20.—San Francisco defeated Portland, 4 to 3, in a fast contest here yesterday, bunching hits in the fifth inning for the winning runs. Hale's error at first let one of the hitters reach home, and O'Connell's infield out allowed another to complete the circuit. Portland..... 3 6 1  
San Francisco..... 4 7 2  
Portland—Pilette and Baker; San Francisco, Couch and Yelle.

### MAN KILLS SELF IN PRESENCE OF FRIENDS

LOS ANGELES, July 20.—With a gun pressed against his own heart, Eugene Tygerson argued with two friends that suicide was the best way out of his troubles. The friends tried to dissuade Tygerson. They failed. After ten minutes of discussion, Tygerson killed himself in their presence. The tragedy took place here late last night.

### His Pitching Gave Vernon Victory In Battle With Solons

PITCHER SHELLBACK

Mainstay of the Vernon pitching staff, who yesterday let the Sacramento slugs down with seven hits while Vernon batsmen were smashing Sacramento heavers for a total of 14 safe blows. Vernon won easily, 7 to 2.

TOMORROW'S GAMES  
Coast League  
Seattle at Los Angeles.  
Vernon at Sacramento.  
Oakland at Salt Lake.  
Portland at San Francisco.  
American League  
Boston at St. Louis.  
Philadelphia at Chicago.  
New York at Cleveland.  
Washington at Detroit.  
National League  
St. Louis at Brooklyn.  
Chicago at Philadelphia.  
Cincinnati at New York.  
Pittsburgh at Boston.

THIS TIME LAST YEAR  
Ruth hit his thirty-first home run against Faber of the White Sox, at the Polo grounds. Chicago scored four in the ninth, winning, 5 to 3. After getting a seven-run lead, Cleveland barely defeated Boston, 9 to 8, in eleven.

Playing against Pittsburgh both Young and Frisch of the Giants scored on King's sacrifice fly, Frisch coming in from second.

### THREE OUT OF FOUR FOR CLEVELANDERS

CLEVELAND, July 20.—Cleveland made it three out of four from Washington yesterday, winning, 6 to 4. O'Neil made his reappearance behind the bat the first time since Memorial day, while Bagby went to the box for the first time since July 4, both doing relief work. Washington..... 4 10 3  
Cleveland..... 6 7 1  
Washington—Erickson, Schacht and Picinich; Cleveland, Mails, Bagby and Nunamaker, O'Neil.

YANKS TRIM TIGERS  
DETROIT, Mich., July 20.—New York made a clean sweep of the series with Detroit, winning yesterday, 6 to 5. Ruth's double in the seventh inning and his daring base running brought out the winning run. New York..... 6 8 1  
Detroit..... 5 9 1  
New York—Hoyt and Schang; Detroit, Dauss, Molling and Almsmith.

BOSTON WHIPS CHICAGO  
CHICAGO, July 20.—A Texas leaguer in the third inning by John Collins enabled Vitt to score the only run of the game yesterday which gave Boston a shut-out over Chicago, 1 to 0, in the last contest of the series. Boston..... 1 7 0  
Chicago..... 0 5 0  
Boston—Bush and Ruel; Chicago, McWeenie and Schalk.

BROWNS NOSE OUT MACKS  
ST. LOUIS, July 20.—Jacobson's single and doubles by Severoid and Geber in the eighth after two were out gave St. Louis one run and a 5 to 4 victory over Philadelphia. Philadelphia..... 4 8 1  
St. Louis..... 5 14 1  
Philadelphia—Hasty, Rommel and Perkins; St. Louis, Morris, Bayne and Severoid.

### WILLARD STILL ON TRAIL OF DEMPSEY

Ex-Champ Writes to Former Manager In Effort To Get Match

United Press Leased Wire  
NEW YORK, July 20.—Ray Archer is running one of those windy palaces, full of trick doors, dark places and slides, over at Palisades park. He used to have a champion of the world until Jess Willard decided he could manage himself. Since then Archer has slipped away from the boxing game until he is just a reader of the sport pages and an occasional adviser of his big protegee. Archer didn't allow Willard's breakaway to interfere with their friendship and he still is on close terms with the Kansas giant. Willard has been writing him for a year, telling him he wants to come back. The big fellow never lost the opinion that he could win the title back if he got the chance. His chance rests with Tex Rickard and the king of the promoters says he will not sign him up until he has the assurance that the Goliath can get into condition.

### JONES, EVANS SEEK OPEN GOLF HONORS

United Press Leased Wire  
COLUMBIA COUNTRY CLUB, CHEVY CHASE, Md., July 20.—This was amateur day in the preliminaries for the national open golf tournament, with Bobby Jones, Atlanta youngster, and Chick Evans Jr., American amateur champions, as the head liners. These are the only two amateurs who are conceded a chance in the finals by the experts. Nelson M. Whitney, New Orleans, however, showed he is not to be overlooked by making a 75 in the first day's preliminaries, taking his place alongside Par O'Hara, New Jersey, at the head of the low score list. Jim Barnes and George Duncan, the former British open champion, furnished the star professional match on today's card.

Jones made the first nine holes in 39 and Diegel took 40. Jones came in with a 38, giving him a total of 77 for the 18. Diegel knocked out a 37 coming in, giving him 77 also for the round.

### PITTSBURGH BREAKS EVEN WITH GIANTS

NEW YORK, July 20.—Pittsburgh regained the three game lead it brought to New York by defeating the Giants yesterday, 10 to 1. Pittsburgh clinched the game with seven runs scored off Ryan and Sallee in the fourth inning. Pittsburgh..... 10 15 1  
New York..... 1 8 1  
Pittsburgh, Adams and Schmidt; New York, Ryan, Sallee, Benton, Zink, Causey and Smith.

GEARY WINS FOR REDS  
PHILADELPHIA, July 20.—Geary, a recruit pitcher from the Pacific Coast league, made his Cincinnati debut yesterday by defeating Philadelphia 6 to 4. Though he was relieved in the eighth inning by Luque, when Philadelphia made a temporary rally, Geary pitched effectively. Cincinnati..... 6 12 0  
Philadelphia..... 4 9 3  
Cincinnati, Geary, Luque and Hargrave; Philadelphia, Winters and Peters.

ANOTHER FOR BRAVES  
BOSTON, July 29.—With one man out in the ninth and St. Louis leading 2 to 1, Southworth tripled to left. Cruise struck out and Boeckel smashed a home run into the flag pole in right center field, giving Boston yesterday's game, 3 to 2. St. Louis..... 2 4 0  
Boston..... 3 9 1  
St. Louis, Walker and Clemons, Dillhoefer; Boston, Watson and O'Neill, Gowdy.

CUBS TRIM DODGERS  
BROOKLYN, July 20.—Chicago made it four out of five from Brooklyn by winning a 13-inning contest yesterday, 3 to 1. Wheat of the Superbas hit a home run in the second and the Cubs tied the score in the ninth on two singles and Grimes' sacrifice fly. Kelleher's triple and Grimes' second sacrifice fly netted two runs in the thirteenth. Chicago..... 3 13 0  
Brooklyn..... 1 11 2  
Chicago, Cheever, York, Martin and Daly; Brooklyn, Smith and Miller.

### TRAINING FOR CLASH WITH MILLE. LENGLEN

NEW YORK, July 20.—Miss Mary K. Browne of Los Angeles, former tennis champion and the first of the California delegation to arrive here, is training for the national championship matches at Forest Hills. With Mrs. May Sutton Bundy, who is expected to be here next week, she is expected to give the greatest opposition to Mlle. Suzanne Lenglen, the world's champion.

SOLONS RELEASE JONES  
SACRAMENTO, July 20.—Carroll "Deacon" Jones, Sacramento pitcher, today was unconditionally released. He leaves tonight for Kansas City. Jones, who came to the Solons from the Portland club, has made but two starts this year and had to be relieved both times. Storm waters will be turned into Dry creek next winter to avoid congestion at the Fresno city sewer farm.

### COMPLETE PLANS FOR TRIP TO ATASCADERO

County Secretary George S. Chessum of the Y. M. C. A. and District Secretary A. J. Raitt were today completing their arrangements for an early start tomorrow morning for Atascadero where they will attend the summer school for Y men. The trip will be made by automobile and the party will consist of Mr. and Mrs. Chessum and their children, Marjorie and George Jr., and Mr. and Mrs. Raitt and their two sons, John and Walton.

Camping equipment will be carried and the long drive north as well as the return trip will be broken by an over-night camp.

The two families will be members of the summer tent colony adjoining the Community house at Atascadero and are anticipating a pleasant vacation trip in addition to the benefits to be derived from the summer school where Chessum will be one of the instructors in boys' work while Raitt will complete his third year course.

Eighteen peach orchards have been entered in the Sutter county farm bureau peach growers' contest. Alameda county farm bureau has appointed A. J. Garin secretary-manager and marketing manager.

Harvesting of milo in Imperial valley will begin the latter part of the month, with few buyers in sight.

## CHANDLER SIX

Now

**\$1785**

Down to the Price of  
Eight Years Ago

The builders of the Chandler car have always gone a long way to give the public the highest quality at the lowest price. And now they have gone all the way. The Chandler price today is the price of the 1913 Chandler.

The Chandler of 1921 is a big, handsome, powerful car, distinguished by many essential features which are characteristic of the highest priced cars. Into it are built all the developments and refinements created in the great Chandler works during the past eight years. And its price is \$1785.

Beautiful and roomy bodies, splendidly upholstered and finished are mounted on the one famous Chandler chassis.

Highest Quality at Lowest Price

## The Test of Economy

Apply the test of economy to Today's Oakland Six by relentless comparison with other cars.

Guide your comparison by the basic standards of first cost, gasoline mileage, tire mileage, cost of maintenance and resale value.

Compare it with any other car of similar size. Oakland is more economical.

Compare it with any other car of similar horsepower. Oakland is more economical.

Compare it with any other car of similar price. Oakland is more economical.

Go even further and compare the economy of Today's Oakland with that of smaller, less comfortable, less powerful cars that are priced lower than Oakland.

Your findings must convince you that on the sound basis of net cost for miles of travel delivered, the Oakland is not excelled in economy by any other car.

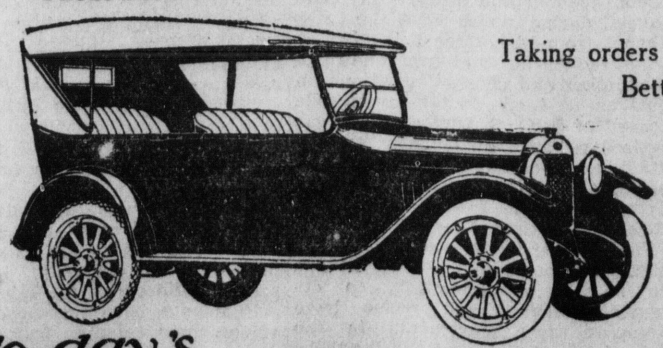

The car itself is always ready to prove the things we say of it. Call or phone for a demonstration today

## HIST! REAL LIVE RATTLESNAKE SLAIN HERE

Is there a nest of rattlesnakes in the heart of Santa Ana or are some persons seeing things?

At least one snake, purported to be a rattler of the black diamond variety, was found beside Tony's restaurant on Bush street about 10 o'clock last night.

The reptile was discovered by a party of motorists who stopped at the restaurant for a meal. One of the party, whose name was not learned, killed the snake.

The remains were viewed by Officer Sid Smithwick and Clinton ("Red") Ives. Both declared it was a rattler. They said it measured three feet and had four rattles and a tuft.

According to Ives, the rattlesnake was seen about Tony's cafe some ten or twelve years ago, but he could not say whether this snake was an offspring of the snake seen at that time.

It is reported that the remains of the snake were lying in the street in front of the cafe this morning. Officer Smithwick made a written report on the snake. He added in a "P. S." that "everybody was perfectly sober," intimating, it was said, that the reptile was viewed through clear eyes and was not the product of a hazy imagination.

## BRITISH PLAN FOR IRELAND OUTBREAK

LONDON, July 20.—With the Irish peace negotiations quivering in the balance today, it was learned authoritatively that failure of the conference will be followed by an unparalleled campaign of military repression in Ireland.

If the present effort toward peace is unsuccessful, every power of the government will be exerted to utterly crush the Sinn Fein. High officials informed the United Press that plans have been prepared which will eventually turn Ireland into a vast military prison, crushing the country's economic life and putting a tag on every Irish citizen.

The danger that the plans may become operative was shown in the attitude of the various conferees today. Premier Craig of Ulster was back in Belfast, with General Smuts on his trail, apparently in an effort to arrange his participation in some way in further negotiations.

Sinn Fein's Secretive  
Sinn Fein delegates here hesitated to comment on Craig's departure after asserting that Ulster would demand recognition in the settlement.

Sinn Fein's did not know whether Sir James was talking for the benefit of Ulsterites or whether he had the approval of Premier Lloyd George of Great Britain. If the latter were the case, it was certain the Sinn Fein would withdraw immediately from the conferences.

Meanwhile Desmond Fitzgerald, chief propagandist for the Sinn Fein, has asserted positively that Ulster will not be admitted to the main conference, but will have to treat with Southern Ireland after peace is arranged with Great Britain.

Would Crush Ireland  
In view of the apparent deadlock, British officials were seriously proceeding with plans for blotting out the Sinn Fein.

Among these proposals are:  
1—Declaration of martial law in all Sinn Fein sections.  
2—Garrigons to be posted in all cities and towns and strong military forces put to patrolling the open country.

3—All Irish citizens, in England as well as in Ireland, to be registered, photographed and thumb-printed. All citizens would be compelled on demand to show their identification papers.

4—Extreme restrictions on even ordinary travel.

5—Summary action against disloyal government employees.

6—Passports to enter or to leave Ireland.

7—More drastic penalties for consorting with rebels.

8—Increased effort to catch rebels "on the run."

To make certain that authorities get in touch with everyone in Ireland, dragnets will be thrown out so that a cordon of troops will sweep through every section.

## JURY IS TO HEAR BATTERY CHARGES

A jury trial is scheduled to be held in the justice court here this afternoon. The plaintiff in the case is Carlos Baragos, Mexican, of the Del Norte district, and the defendants are Ramon Rosales and Atanazio Badillo, both of whom are charged with battery.

Baragos alleges that the two Mexicans offered him a drink on the night of June 30. He refused, and they insisted. Still he declined to drink and, according to his story, they jumped on him and beat him up, one of the men breaking a bottle over his head.

Charles Swanner is to act as attorney for the defendants.

## MAN HELD IN GIRL CASE SOUGHT HERE

Justice of the Peace Cox today revealed the fact that he has on file a complaint against Horace Box, Long Beach fireman, who is charged with a statutory offense against a Long Beach girl. Box is now confined in the county jail at Los Angeles pending his preliminary hearing.

The complaint which is on file here charges Box with exceeding the speed limit. He was arrested on Anaheim boulevard April 2 by Traffic Officer Hank Warner.

Judge Cox stated that he did not know why Box had not been brought into court before he was arrested in Long Beach.

## Fifteen Hundred Pairs Mostly White Shoes On Special Sale

A sentence or two lines, in the big advertisement of Peterson's Shoe Store, in yesterday's Register read:

"1300 Pairs of Beautiful Shoes Offered; 1500 Pairs of Beautiful Shoes Offered."

It should have read as follows:  
"1500 Pairs of Beautiful Shoes Offered; Most of Them our Entire Line of Whites."

## FINED FOR DRIVING OVER CLOSED ROAD

For driving his automobile over a closed highway, J. Torosian, a business man of Long Beach, paid a fine of \$25 assessed by Justice of the Peace Cox and then paid C. E. Bressler, of the contracting firm of Wells and Bressler, \$10 damages to his property.

According to testimony offered by Bressler, Torosian drove his car past a barricade on West Fifth street where improvements were being made to the highway. Bressler says he stopped Torosian and ordered him to turn around. In turning the motorist backed into several wooden concrete forms and smashed them.

Bressler said that he demanded payment for the damage to the forms at the time of the alleged offense, but that Torosian flatly refused to pay a cent.

Torosian declared that he did not see any sign that the road was closed and that another motorist told him that he could get through. He admitted that he was in an "awful hurry."

The defendant admitted getting a bill of \$10 for the damage done to the concrete forms, but declared that the damage would not amount to half that.

He paid his fine of \$25 and then slapped a \$10 bill into Bressler's hand with some remark to the effect that he was paying an extortionate price for the damage.

## ANAHEIM MEXICAN SCHOOL PLAN GAINS

Failing to secure a site for a Mexican school near the Anaheim sugar factory at figures which it considered reasonable, the Anaheim grammar school board has concluded negotiations with the city of Fullerton for a ten-year lease on a site at the corner of Elm street and the State highway, Anaheim, at a yearly rental of \$50, according to announcement at Anaheim today.

The school board proposes centralization of Mexican children in a school building close to the Mexican factory, which is centered around the factory. Failing to get quotations on sites at figures deemed reasonable, negotiations were taken up with the city of Fullerton for lease of the site named.

It is proposed to erect two buildings, to embrace three or four school rooms, a community center hall for the Mexicans and baths for children and adults.

Miss Vincent Doyle, who has taught at Anaheim for two or three years, will be principal of the new school.

It is proposed as far as possible to have Mexican children in other schools attend the Mexican school. One hundred and fifty Mexican children registered in Anaheim schools last year. It was stated today, but the average attendance was about fifty per cent of that number.

It is intended to enforce strictly the truancy law the coming school term and by this method it is believed a large percentage of Mexican children of school age will be brought into the school.

## ARREST FLYERS IN JOY RIDE ACCIDENT

SANTA MONICA, Cal., July 20.—Guy McLaughlin, one of four naval aviation officers of San Diego arrested on charges growing out of a wild automobile ride through crowded streets here, pleaded guilty today and was fined \$400.

United Press Leased Wire  
SANTA MONICA, Cal., July 20.—Four naval aviation officers of San Diego, now at liberty under bail, are to go on trial here Friday on charges growing out of a wild automobile dash down Ocean Front, terminating with a smash against a brick wall that wrecked the machine.

Guy McLaughlin, driver of the machine, is under \$500 bail, charged with driving an automobile while intoxicated.

Howard Baugh, L. W. Brown and F. W. Weed, McLaughlin's companions, are charged with disturbing the peace.

The aviators were arrested by Patrolman E. W. Riggles, who jumped on the running board and was forced to ram the machine against a store front to keep it from plunging into a crowd of pedestrians.

## WATER TAKES PLACE OF LIQUOR FORTUNE

SAN FRANCISCO, July 20.—The removal from the government bonded warehouse at Vallejo of forty-eight barrels of whisky, valued at approximately \$150,000, and the substitution of water, has been discovered, federal authorities here announced.

The owner of the whisky is said to be F. Hollman, San Francisco realty dealer. Hollman left San Francisco yesterday for New York on business and authorities were unable to confirm his ownership.

## SECRET QUIZ OF SCHOOL HOUSE WORK OPENED

Investigation into alleged defects in the work of constructing the new Central grammar school building and the Citron street kindergarten building, at Anaheim, was in progress in that city today by an arbitration committee. The committee opened its first session at 10 a. m. today at the Central building and will hold sessions daily, calling as witnesses men who were employed in various features of the two jobs.

The committee was selected by the board of education and the contractor naming one representative each and the two selecting the third. The board's representative is H. Brisco, building contractor of Anaheim; the contractor's representative is William Kerr, contractor of Los Angeles, and the third man is S. C. Hartman, of Anaheim.

Based on C. of C. Charges  
The investigation is the result of allegations by a committee from the Chamber of Commerce that the buildings were not erected according to specifications, and that there were serious defects.

When the board presented the matter to the contractor, A. L. Gribble, he called attention to a provision in his contract that in case of disputes a board of arbitration should be appointed to adjust them.

The Central grammar building cost in excess of \$100,000. The board of education is holding back \$30,000 to enforce correction of the alleged defects.

Roofs Defective, Claim  
It is alleged by the school board and the Chamber committee that roofs on both of the buildings are defective and will have to be replaced.

Among other errors charged to the contractor is the alleged use of washed gravel in the foundation when crushed stone was specified in the contract. It is also asserted that where tongue and groove flooring was specified for the sub-floor, boards laid half an inch apart were substituted.

It is expected that the arbitration committee will be in daily session for at least ten days. Painters, plumbers and others working on the jobs will be brought before the committee for quizzing. The quiz will be secret and the information gained will be used as a basis for the final findings of the committee.

## ANNOUNCE PROGRAM FOR BAND CONCERT

That the expressions of pleasure heard following the first band concert of the season would indicate a good attendance at tomorrow night's second number of the series, was the opinion offered today by J. C. L. Garick, director of the Orange County Auto Trades association band, which is presenting the summer concerts at Birch park.

The program for tomorrow night's concert will be given by twenty-eight members of the organization and will open at 8 o'clock with the march, "N. C. 4" by F. E. Biglow. Keila Bela's "Comedy Lullaby" will be given as an overture and will be followed by the fox trot "Emaline" by McHugh.

The waltz, "Daughters of Eve," by C. M. Ziehrer, will be next on the program, followed by a selection from the musical comedy favorite, "The Prince of Pilsen" by Gustave Luders.

"La Paloma" will be given as a Spanish serenade, followed by John Burri's "Black Hills" march. According to custom, the "Star Spangled Banner" will be offered as the finale.

## FIGHT FOR HIGHER LEVY ON WALNUTS

It is too late to secure a higher rate than that of 2½ cents a pound on unshelled walnuts provided for by the sub-committee of the ways and means committee on agricultural products, and other members of the committee as sent to the coast by Congressman Osborne of Los Angeles.

The California Walnut Growers' association telegraphed Osborne asking his advice on the possibility of securing a higher rate on the unshelled product.

Osborne stated, however, that the bill would be before the finance committee for about a month and that hearings would be granted at different times. He urged that walnuts interests present data which could be submitted to the committee and which might influence it in giving a higher rate in its final decision.

He declared that the growers should not become too optimistic over possible success, for senate leaders are being urged by importers and consumers of the product to lower the rates below those fixed by the house.

Governor William D. Stephens has added his plea to that of the growers for a higher rate, telegraphing Chairman Joseph Fordney of the ways and means committee yesterday.

## SAM BROWNE BELT INQUIRY ANSWERED

WASHINGTON, July 20.—The war department's reply to a letter from the commandant of the Pasadena Military academy states that Sam Browne's belts may be worn by instructors or members of cadet corps, provided the uniform as a whole includes some distinctive mark or insignia to distinguish such uniforms from the uniforms of the regular army, the navy or the marine corps.

## OIL WORKER IS BEHEADED AT FULLERTON

Harry L. Hazard, 24, an oil driller, was killed instantly at 11 o'clock last night when a rotary brake collapsed at the Murphy-Coyote lease of the Standard Oil company, near Fullerton. Hazard's head was torn literally from his body.

A. B. Jenks, also an oil driller, simultaneously sustained a badly lacerated hand.

Hazard, who is the son of Mr. and Mrs. George Hazard, of Whittier, leaves a widow, but no children. His body was removed to the White Undertaking parlors, Whittier.

HARD ON THE EYES  
MACOMBE, Ill., July 20.—Lack of length to women's skirt first attracted Mrs. James Vawter's attention when she recovered her eyesight by an operation after being blind for seven years.

## "You Can't Be OPTOMISTIC with MISTY OPTICS"

The human body with its five senses, propelled by REASON, is at once the most delicate and wonderful dynamo ever conceived. Of the five senses VISION is REASON'S chief aid. Let VISION falter and MIND becomes morbid, TOUCH is timid—the other senses languish and AMBITION DIES. When this happens REASON would tell us to aid VISION—and save all.

## OUTLINES STEPS FOR PACT IN ARREST CASE

Procedure for an amicable adjustment of the case of Mrs. Lionel Roberts, of Balboa, was presented in a letter written by Attorney Clyde Bishop to Dan V. Noland, attorney for Mrs. Roberts, according to the statement of Noland today, following receipt of the letter.

Bishop advised the attorney that no matter what the final result of a damage suit might be, should one be brought, the court records would not be cleared.

He told Noland that if clearance of the records was what he sought, that he (Bishop) believed this could be done by establishing before the city recorder the facts as he claims they are. Should Noland present proof convincing the court that an error had been made, the plea of guilty could be withdrawn and the case tried or dismissed, Bishop said.

Mrs. Roberts was arrested here a few weeks ago during a raid conducted by local officers.

## HOLD 4 BOYS WHILE POLICE INVESTIGATE

Four Long Beach boys were being held in the county jail here today pending receipt of word from their parents or other relatives. They were arrested early this morning by Officers Joe Ryan on a blanket charge of vagrancy.

The boys are George Darnell, seventeen, Lloyd Murray, alias Keller, seventeen, Russell Keller, eighteen, and Harry Livezey, eighteen. Officer Ryan encountered the boys about midnight last night. They were peering into various show windows and acting suspiciously.

When questioned they could not give a good account of themselves. Officer Ryan found out where they lived and ordered them to return to their homes. They said they would obey the order and started walking west on Fifth street.

At dawn this morning Ryan again met the boys in front of a clothing store on Fourth street. When they saw him they tried to hide in the vestibule of the store. Ryan approached them and one of the boys ran. As Ryan arrested the other three the youth who fled neeped around the nearest corner. He, too, was arrested.

City Marshal Sam Jernigan called the Long Beach police department and an effort is being made by the beach authorities to locate the relatives of the boys.

## \$160,000 BONDS ARE VOTED AT ANAHEIM

Anaheim is to have a new city hall.

Other municipal improvements also are to be made in the immediate future, the city hall and other improvements to cost \$160,000.

The money was made available by progressive voters of the city giving almost unanimous approval to a bond issue of \$160,000 at the election held there yesterday.

Five attempts have been made to vote bonds for a new city hall, the proposition being coupled with other issues except in the election of yesterday. Four times the proposition went down to defeat.

Four propositions were submitted to the voters yesterday, with the following results: For city hall, \$75,000; yes, 601; no, 61. For extension of water service, \$50,000; yes, 539; no, 35. For sewer extension, \$30,000; yes, 530; no, 41. For fire auxiliary pump, \$5,000; yes, 538; no, 32.

Two Precincts  
There were but two precincts in the city, voters residing south of Center street being in precinct No. 1 and voting at the city hall and those north of Center being in precinct No. 2 and voting at the store of the Pacific Implement company.

Officials of the city are anticipating the erection of one of the finest city halls in the county under the issue of \$75,000. They expect the new building to equal if not surpass the new hall at Orange, the latter costing, complete, around \$84,000.

Plans Large Building  
It is understood that Samuel Kramer, who will erect what will be, in point of ground space covered, one of the largest buildings in Anaheim, and immediately joining the city hall property on Center street, has agreed to enter into an agreement with the city for a party wall. His building will be of two stories, with foundation heavy enough to carry other stories.

The city will save something by this co-operation and in addition will have considerable salvage from the old city hall which can be used in the new structure, making more than \$75,000 available for the new hall.

The improvements provided for under the issue will be started at an early date, it is said. Certain legal formalities are necessary, and as soon as these have been disposed of and the bonds sold, it is expected that the city council will get the improvements under way.

## SUIT FOR NICKEL IS ENTERED BY RAILWAY

DALLAS, Tex., July 20.—A damage suit for five cents and costs was settled in court here when the Dallas Railroad company, without a contest, paid the nickel and \$2.10 costs.

Downey, Los Angeles county, will hold its community fair, August 25-27. H. Koopman is secretary.

## Interest Growing In The Register's Big Bicycle Contest

The next six days promise to be interesting for the boys and girls who are working in The Register's bicycle campaign. Beside getting full credit on the bicycles they are working for, someone during the next week is going to get a present of \$5 in cash.

This \$5 will go to the boy or girl who turns in the greatest number of new six-months' subscribers from noon, Wednesday, July 20, to noon, Wednesday, July 27.

The feature of this arrangement is that all the solicitors have the same opportunity and equal chance of getting the extra \$5.

## COUNTY FAIR TO CONTINUE FOUR DAYS, PLAN

The Orange county fair at Huntington Beach this year will continue four days, instead of three as in former years, and the dates are Wednesday, September 23, to and including Saturday, October 1.

Such was the decision the fair committee of the Huntington Beach Chamber of Commerce reached at a meeting in the library building there last night.

The four days, it is believed, will give everyone in the county an opportunity to attend and see the wonderful display of products that will be provided, the industrial and automobile displays, the concessions, and other features. The admission charge will be 50 cents for grown-ups and 15 cents for children of grammar school age each day, entitling the purchaser to go inside the tents morning, afternoon and evening.

Centers Interested.  
Some of the farm centers and chambers of commerce in the county, it was reported, already have committees appointed and plans well under way for community exhibits and this department is expected to be much larger and better than ever before.

No entry fee will be charged for community exhibits but each center or other body participating has been requested to co-operate by donating \$5 or more to the prize list. Cash prizes for the five best community exhibits are \$100, \$50, \$25, \$15, and \$5, and the competition is sure to be keen among the various districts.

Five large tents have already been engaged, with a total of 74,000 square feet of exhibit space, it was announced, nearly double the space available last year, and it is expected that all departments will show a substantial increase in quality and quantity, justifying the slogan "Fairer of the Fairs."

Two Main Tents.  
The two main tents, for agricultural and industrial displays, are each 100 feet by 220 feet, and the other three tents are 40x300, to be used for auto and tractor displays, \$8x120, to be used for entertainment features; and 60x140, to house the poultry and pet stock displays.

Present at last night's meeting were Chairman Joseph Vavra, Secretary J. K. McDonald, Louis A. Copeland, Ralph C. Turner, Dr. F. E. Wilson, H. H. Campbell, and Wayne Goble, of Santa Ana, advertising manager for the fair.

A large supper meeting is being arranged for next Tuesday evening at the Huntington Inn.

## BUSINESS WOMEN IN ANNUAL CONVENTION

United Press Leased Wire  
CLEVELAND, O., July 20.—Delegates to the National Federation of Business and Professional Women's clubs today plunged into the first real business of the convention.

Round table discussion of the work of state federation was the program for the greater part of today.

Helpful work the convention can undertake was considered in executive session under the leadership of Miss Ida Anderson, Indiana, chairman. Finance and the club program for 1921 and 1922 also were being discussed.

"Get off the wrecker's crew," went on the construction gang."

This was adopted as the federation's 1921 slogan.

## ENGINEERS VOTE TO BREAK SHIP STRIKE

United Press Leased Wire  
SAN FRANCISCO, July 20.—By a vote of 480 to 50 the marine engineers' union last night voted to return to work aboard the privately owned steam fruit vessels, which have been tied up for some time because of the strike.

The engineers will go back to work on the basis of a 15 per cent cut in wages, as originally proposed by Admiral Benson. It is understood that the engineers will go back to work under the "American plan" of open shop, and that non-union engineers who went to work during the strike will be retained.

Whether the engineers' action will be followed by the other unions is not known. The master mates and pilots, the sailors and marine cooks and stewards' unions recently voted to continue the strike.

Blocking The Traffic  
NEW YORK, July 20.—Traffic congestion is becoming worse in New York. Miss Merrill Mackay, in a one-piece bathing suit, is instructing beginners in an improvised street swimming pool.

## WOMAN CHIROPRACTOR LEAVES COUNTY JAIL

Bidding farewell to her fellow cellmate, Dr. Sue Amack, Miss Alice Huhn, Anaheim chiropractor, left the county jail about 9:30 o'clock this morning. She served a term of two months, minus ten days for good behavior, for practicing her profession without a license from the state board of medical examiners.

Miss Huhn's departure from the jail was marked by no display of ceremony. Frank Delatour, of Anaheim, a friend of the "martyr to the cause of chiropractic and medical freedom," called for Miss Huhn in his automobile.

They drove away toward Anaheim. As she departed in the machine Miss Huhn waved a farewell at Dr. Sue Amack, who was standing behind the bars in her cell on the second floor of the jail.  
Dr. Amack will be released next Monday morning.

Dr. Mark Myers, Urologist, 110½ East Fourth, is home and ready to see patients.  
Liggett-Bemis Company will save you money on your lumber bill. Phone 1922. 601 East Fourth.  
Many apricot growers in the Kernman district of Fresno county are drying their own fruit.

SECTION TWO

SANTA ANA, CALIFORNIA, WEDNESDAY, JULY 20, 1921

PAGES NINE TO FOURTEEN

**RATE SCHEDULE  
PUZZLE SOLVED  
IN LETTER BY  
W. J. DODGE****Minimum Charge System Is  
Cause of Widespread  
Dissatisfaction****SNARL IS IRONED OUT****New Information Regarding  
Pilot Lights In Motor  
Houses Given**

Revealing that there had been widespread dissatisfaction among agricultural power users over the operation of what is known as Schedule P-6, E. E. Saunby, a member of the public utilities committee of the Orange county farm bureau, today made public a letter in which W. J. Dodge, of the electrical department of the railroad commission, explained in detail, pursuant to Saunby's request, how the schedule in question applies.

"Reference to the application of the minimum charge under schedule P-6, applying to agricultural power service," Dodge wrote, "we wish to advise you that this minimum charge is an annual charge and is accumulative throughout the year.

"In the schedule it states that the minimum charge is an annual charge and is accumulative throughout the year.

"In the schedule it states that the minimum charge is to be paid in six equal monthly installments, from May to October, inclusive.

"If during this period the consumer should use less than the minimum amount he would be required to pay the minimum charge, but if at some later period he uses energy in excess of the minimum charge, or if energy is used in months other than those in which the minimum is required to be paid, this energy if so used should be applied to those months in which the minimum was collected and in which the consumption did not exceed the minimum requirements.

"In other words, at the end of the six months' season, or later on, the consumer should have his bills adjusted.

"The charge stated in this schedule is an annual charge and if at the end of the year the consumer has used sufficient energy to equal or exceed the minimum charge, then any excess which has been collected during the months in which the minimum has been paid should be refunded to the consumer. The method should be corrected along from month to month by the company in such a way that adjustment is automatically made at the end of each month's service."

Saunby said:

As to Pilot Lights

"There has also been some question as to the fact that the railroad commission refused to allow pilot lights in pumping plants connected to the power service meter, and Dodge states that the commission has not issued any instructions to this effect to the Southern California Edison company.

"There is, however, a possibility that the industrial accident commission has a ruling covering this point. So, whenever Edison company representatives state simply that 'the commission' rules or orders thus and so, careful inquiry should be made as to which commission makes the rule or order in question so that the responsibility may be placed where it belongs.

"The securing and publication of the foregoing information, which is of interest to all agricultural power users, is just one instance of the service which the utilities committee of the Orange county farm bureau is trying to render to the farmers of Orange county and all farmers whether members of the farm bureau or not receive whatever benefit results from the efforts of the committee.

"Practically all the utility problems which confront the farmer today are readily solved when submitted to the proper authority and while the committee cannot solve these problems itself it can place them before men whose business and duty it is to handle such matters and thus take some of the grief out of the grievances either real or fancied which burden so many of the farmers today."

**VALUE OF BAY CITY  
IS SENT UP IN YEAR**

SAN FRANCISCO, July 20 — The value of the city of San Francisco, as shown by property assessments, is \$864,881,977, or \$45,489,819 more than last year at this time, County Assessor Ginty said in making known the assessment roll.

The property includes land, improvements and personal effects.

**HERE IS REPORT RENDERED  
FOR JUNE BY COW TESTER**

Of 859 cows owned by members of the dairy department of the Orange county farm bureau, 134 showed a butterfat production of 45 pounds or more during June, according to the month's report prepared by J. W. Soden, cow tester of the organization.

June was the fifth month of the county dairy cow competition.

Class A, highest herd average, was made by the herd of C. J. Segerstrom, which showed an average of 40.1 pounds butterfat.

Class B, highest individual production, was won as follows:

In the 2-year-old heifer class, by an animal which is owned by Ed Harmon and which produced 47.4 pounds butterfat.

In the cow class, by an animal which is owned by C. J. Segerstrom and which produced 74.2 pounds of butterfat.

Class C, best five cows, was also found in Segerstrom's herd of Holsteins, making an average of 63.7 pounds butterfat.

Soden again called attention to the fact that cows once in a winning group are barred from further monthly prizes in the same class.

"The addition of a 180-cow herd, belonging to Main and Thompson, Los Alamitos, to the association has strengthened the organization and still further proves that large and small milk producers alike are getting valuable results through this co-operative work," said Soden.

The report for June follows:

**22,044 IN YEAR  
ATTEND FARM  
MEETINGS****Supervisors Pleased With  
Work Accomplished By  
County Bureau**

Three hundred and seventeen meetings and field demonstrations, attended by 22,044 persons, were held under the auspices of the farm bureau of Orange county in the period from July, 1920, to July, 1921. It was disclosed in a summary presented to the board of supervisors here recently by the executive committee of the bureau.

The report was rendered upon the occasion of the presentation of a request for continued support of farm advisor work by the supervisors.

The county board members freely expressed their satisfaction at the work that was accomplished during the past year through the numerous field demonstrations and farmers' meetings by the extension service of the state university, acting through the farm advisor and his assistants.

The summary showed that 3,379 personal calls had been made at the farm bureau office here by persons seeking information on various topics.

**Express Satisfaction**

The county board members freely expressed their satisfaction at the work that was accomplished during the past year through the numerous field demonstrations and farmers' meetings by the extension service of the state university, acting through the farm advisor and his assistants.

The summary showed that 3,379 personal calls had been made at the farm bureau office here by persons seeking information on various topics.

**1746 Phone Calls**

The number of telephone calls answered was 1,746.

In response to requests, Farm Advisor H. E. Wahlberg and his assistant, J. R. Waters, made 1,428 visits to farms throughout the county.

The small budget asked of the supervisors was one of the few that showed a substantial decrease from last year's budget.

The committee that waited on the supervisors were President W. M. Belding, Tustin; Secretary J. R. Schofield, Buena Park; Vice President E. E. Campbell, Orange, and Farm Advisor Wahlberg.

**MANAGER PLAN FOR  
BUREAU IS GAINING**

The movement by the Orange county farm bureau to establish a secretary-manager whose duties will be along general lines of the farm bureau activities, is receiving impetus by the investigation of the committee appointed to look into means of financing the office.

The members of this committee, Murray Horne, Yorba Linda; E. E. Campbell, Orange, and L. L. Marchant, Tustin, have not held a meeting since their appointment. It was stated today, but are working on the matter individually and at their first meeting will compare notes as to the results of their investigation.

According to Horne, the plan has been put into effect in other counties of the state, notably Merced, Stanislaus and Tulare, but the duties of the office vary with the communities. In each case it has been found highly successful, although the manner of meeting the necessary expense varies in the counties.

Various plans for meeting the added expense in Orange county have been advanced. Each will receive due attention and at the next meeting of the board of directors of the farm bureau, the committee will be ready to present to the board some definite plan for raising the necessary funds.

**NEW WALNUT CULTURE  
COURSE IS OFFERED**

A new correspondence course on walnut culture is being prepared by the State College of Agriculture, Berkeley.

The course will consist of twelve lessons and will set up subjects as general conditions and prospects of the walnut industry, choosing and location, selecting the trees, propagation work, laying out and planting the orchard, care of the orchard, irrigation and soil culture, control of diseases, insects and other pests, harvesting and marketing, orchard management and business aspects.

The subject matter will be thoroughly reliable and up-to-date, and is expected to fill a large demand for a concise discussion of one of California's main tree crops.

Information concerning the course may be obtained by writing to the Division of Agricultural Education, Berkeley, or to the Farm Advisor, Santa Ana. Circular Number 113 describes twenty-nine other correspondence courses.

**AVOCADO SECTION TO  
PICNIC AT PUENTE**

The newly-organized farm bureau avocado section, an offshoot of the Yorba Linda farm center, will go en masse to the avocado association field meet at Puente July 30.

A picnic lunch will be served at the walnut packing house there and in the afternoon a number of field demonstrations will be given, including:

"Clonal Grafting of Avocados," Dr. W. R. Manning.

"Side Grafting of Avocados," S. W. Funk.

"Pruning the Avocado," Carter Barrett.

Avocado ice cream will be the feature of the day. This is said to be something new and delectable.

**RED SPIDER NOT  
ACTIVE NOW IN  
COUNTY, WORD****However, Sacramento Valley  
Crops Are Affected  
By Pest, Is Shown**

The red spider, which has in times past caused Orange county orchardists considerable worry, is for the present at least conspicuous by its absence from this section.

Perhaps it has gone off on a vacation here, for the field entomologist of the pest control service of the state department of agriculture declares there are plenty of spiders in the San Joaquin valley at this time.

Orange County Horticultural Commissioner E. L. Morris and his deputies agree that the red spider caused more or less trouble in the spring of this year, but few reports of the pest have been received in the past two or three months despite warmer weather.

According to a report of Field Entomologist Theodore D. Urbahn, of the pest control service, the hot, dry weather of the past three weeks has caused a rapid development of the red spider in the San Joaquin and Sacramento valleys.

**Crops Affected**

The crops most severely affected are almonds, peaches, peaches, strawberries and others, varying according to location and cultural conditions. The amount of irrigation water available has an important bearing on the control of the red spider.

Inasmuch as Orange county orchards are not immune from this insect the following comment and advice from the pest control service is of value to every citrus grower:

"Orchards which have been persistently dusted with dry sulphur are considerably less affected than untreated areas. Where this pest is now so abundant that the plants are suffering, dusting with dry sulphur will probably not be sufficiently effective in bringing the pest under control and the liquid spraying will be necessary.

**Danger Pointed Out**

"It must be remembered that there is considerable danger of sulphur burning to the foliage on hot, hot test days, even where the extreme heat does not come until two or three days after the spraying has been done. For this reason the minimum strengths of the different sulphur combinations which will kill the red spiders are recommended for summer spraying.

Opportunities for the Small Investor

Today \$100 or \$500 can be invested in high class bonds that a few years ago were available only in \$1,000 denominations.

As a result of the many opportunities for safe investment of small sums, America's investing class has grown tremendously within the past few years.

The Bond Department of the First National Bank wants particularly to serve those people of Santa Ana, who have had no previous experience in bond buying and who now wish to invest small sums.

Don't hesitate to talk to us about any phase of your investment business. We are always glad to give you the benefit of this Bank's accumulated experience of more than thirty years in the selection of securities.

Come in any day and let us tell you about safe bonds that will yield you a net interest returns of from 5 1/4% to 8%.

SPEED GRAIN TO FARM BUREAU'S ELEVATORS

Reports are coming to the Orange county grain men that the farm bureau grain elevators at Oakland are receiving daily large shipments of barley and wheat from the Sacramento and San Joaquin valley districts. Harvesting is going on in full swing there now.

The farm bureau terminal elevator has a capacity of 1,200,000 bushels and is prepared to turn this over or eight times during the season if water shipments warrant.

Preliminary steps will soon be taken by the grain growers of Orange county to establish an elevator in the El Toro and Capistrano sections which will be a part of the farm bureau system. A terminal elevator at San Pedro will serve the local country elevators.

John Osterman, grain director on the local farm bureau board, is negotiating with the State Farm Bureau federation for assistance in organizing a co-operative elevator service here.

A second-hand bag service has just been announced to the grain growers. These may be obtained through the farm bureau office here.

The California Farm Bureau Elevator corporation has on hand for re-sale a quantity of used burlap grain bags which are being offered at reasonable prices f. o. b. Oakland. These bags are new this year and have been used once for shipment of sacked grain. Most of the bags have been in service from one to two weeks. The bags run free from holes, though may be slightly nicked at ears due to emptying processes. The bags may be used for sacking grain, potatoes, mill feeds, rolled barley and other general purposes.

They are offered as follows:

In lots up to 3,000 at 4 cents each.

In lots over 3,000 up to 10,000 at 3 1/2 cents each.

In lots over 10,000 at 3 cents each.

Quotations are f. o. b. cars at Oakland.

FORGER SUSPECT TO BE GIVEN HEARING

Charged with forgery in three separate complaints, Walter Hill, 64, was scheduled to be given a preliminary hearing in the justice court here this afternoon. The defendant was arrested at Redding, Shasta county, the forepart of last week and returned to this city by Deputy Sheriff Herman J. Zabel.

The first complaint against Hill was sworn to by C. C. Chandler, proprietor of the Main Shoe hospital. Chandler alleges that Hill wrote his name on several checks which he cashed at local stores.

G. B. Temple, proprietor of the Diamond Grill restaurant, and A. E. Hawley, proprietor of Hawley's sporting goods store, have also sworn to complaints.

Temple cashed a check for \$73.25 and Hawley says he lost \$65 in cashing a check presented by Hill. The forged signature of C. C. Chandler appeared on both of these checks, it is alleged.

**SOLDIERS' INSURANCE.**

MONTREAL, July 20.—Approximately \$10,500,000 insurance is held by Canadian war veterans under the provisions of the Returned Soldiers insurance act, representing about 3,800 policies. There has been a marked increase in the number of policies taken out recently since an amendment to the act arranged for the payment of total amounts at death.

**FISHING FOR SHARKS.**

VICTORIA, B. C., July 20.—Five hundred mud sharks in less than two hours is the catch announced by the Anglo-British Canadian company, limited, which organization is now prosecuting the shark fishing industry in the gulf of Georgia.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

OAKLAND WOMAN WAS ALMOST A WRECK

"When I began taking Tanlac I was in a dreadful state of health and weighed only eighty pounds; now I weigh one hundred and ten and never felt better in my life," said Mrs. Dolores Oest, residing at 3415 Chestnut street, Oakland, Cal.

"Two years ago I was in the hospital, where I had just undergone an operation, and was a complete wreck of my former self.

"My stomach went bad and I was not able to eat anything nourishing, and what I did force myself to eat gave me such terrible pains they nearly drove me wild.

"The pressure on my heart from gas on my stomach kept me in misery all the time, and I was afraid I had heart trouble. Then I'd have choking spells that would interfere with my breathing and make me more miserable than ever, and I'd get so dizzy I couldn't stand up.

"Nervous headaches pained me more than I can describe and usually put me in bed for a couple of days. To add to my misery, my back got to hurting me right over my kidneys. I was that sick and nervous and many nights I never closed my eyes in sleep, and I got so discouraged over my condition I feared I'd never get well.

"My first bottle of Tanlac helped me so much I knew right away I had found the right medicine. I was so surprised and happy over the results that I bought a bottle and sent it to my mother in Mexico, and persuaded my brother in Albuquerque, N. M., to take Tanlac for his stomach trouble." Tanlac is sold in Santa Ana by Rowley Drug Co.

BOY FINDS PACKAGE CONTAINING \$3000 IN SIGNED CHECKS HERE

Honesty may be its own reward, but young Ferdinand Rodriguez felt today that other pleasant things accompany it also.

Ferdinand, son of Mr. and Mrs. Oberlein Rodriguez, 719 East Second street, and a Register carrier, early Sunday morning found a package which upon investigation proved to contain signed checks, contracts and notes to the value of \$3,000, all payable to Gates and Zander, Pomona.

Ferdinand put the package in the care of his father and notified the Pomona firm.

W. B. Gates of the firm came to Santa Ana and identified the property. Gates stated that he was in this city Saturday night after a few days at Huntington Beach, where Mrs. Gates is spending the summer.

He has no idea how or where he lost the valuable package, and had some uncomfortable hours until the letter from Ferdinand told him that it had fallen into honest hands.

Today, Ferdinand was in camp with the Boy Scouts, richer by a neat little sum added to his bank account in recognition of his honesty, and all ready to have a royal vacation.

SHORT CHILI CROP IS SEEN AT GROVE

That the outlook for this year's chili pepper crop is not as good as it was at this time last year, was the statement today by officials at the J. A. Knapp receiving house at Garden Grove. Garden Grove is the center of the industry in the county.

Indications now are that the total acreage this year will be fully 35 per cent less than it was last year. Early dry hot winds tended to spoil the chili plants in a good many of the fields and consequently this means a yield for this year of perhaps half that reached last year.

Green chili will probably arrive at the Garden Grove receiving plants a little earlier than last year, however. The first amounts of consequence are expected about the last of October or the first of November, it was said today. Shipments after drying will follow soon after.

Much of the Garden Grove chili is sent to the California Packing corporation plant on East First street, Santa Ana, where it is packed and sent all over the United States.

Chili pepper prices are lower at present than they were last year. The contract price to growers at the beginning of the season last year was 20 cents a pound. The present price is under 15 cents but is expected to reach a higher figure before the start of the 1921 campaign, it is believed.

ALFALFA PRICES ARE 'WAY DOWN, REPORT

(Continued from Page Nine)

other of the species is raised in this county.

Prices cited in Santa Ana today find alfalfa varying from \$22 a ton to \$26, according to quality.

Present prices of alfalfa are said to be so low that growers in some sections would get practically nothing for their hay after paying freight, baling and hauling, if they were to sell at present prices.

Receipts of alfalfa hay in the central markets were somewhat lighter last week than during the preceding week, but as the demands there still remain abnormally light for this period of the year, the market showed no improvement in price or tone.

The state agricultural department is very interested and active in keeping track of the spread of the alfalfa weevil in the infected neighboring states. The department is determined to prevent its spread to California and has said it will spare no effort to save the industry from being crippled or destroyed by the disease.

**Ready to Aid Growers**

The state agricultural director has said he is ready to assist growers in putting them in position to meet this danger in the best way possible. It seems that the weevil can only be successfully exterminated as long as it is confined to small patches and he therefore recommends to the growers extreme watchfulness and immediate action when the infection first appears.

The weevil dooms alfalfa culture in infected sections unless it is eradicated in the very beginning.

Provisions have also been made for the quarantining of hay from infected states because the department feels that it is easier to keep the state free from danger rather than stamp out the pest after it is found its way into the hay.

TWO COURSES OPEN TO FARM STUDENTS

DAVIS, July 20.—Students who are intending to enter the University of California Farm school at Davis now have two courses open to them, provided they are high school graduates and have the recommendation of their principal, according to Thomas F. Hunt, dean of the college of agriculture.

Heretofore, about one-half of the students entering the university farm school were eligible to enter the university for degree courses, the freshman and sophomore years of which are given exclusively at Berkeley. Not infrequently, after they had attended the university farm for one or two years, the farm school students have wished that they had entered the four year university course.

According to present arrangements, such students may enter the farm school at Davis as heretofore, if they so desire, or they may this year take their freshman work at Berkeley. In their sophomore year they may transfer to Davis where the freshman and sophomore work in degree courses will be offered. Such students will thus save a year towards graduation.

The Butte county farm bureau is planning to build community cold storage houses.

SHOW LANTERNS AT AUTO CRASH CASE TRIAL

Two coal oil lanterns, one of which was shattered, furnished mute evidence of a near fatal accident which occurred on the highway between Cypress and Anaheim on the night of December 31, last, when they were presented as exhibits in the justice court here during the preliminary hearing of Frank McCoy, of Los Nietos, charged with driving his automobile on the wrong side of the road.

The charge against McCoy was brought by K. Tsubara, a Japanese. His wife and four children, all of whom were with him at the time of the accident, appeared in court. The wife and one of the children were called as witnesses.

Both the plaintiff and defendant agreed that the night of December 31 was the foggiest night they ever saw. It was next to impossible to see a light at a distance of thirty feet, according to the testimony. McCoy declared there were no lights on the wagon operated by the Japanese.

McCoy's machine struck the Japanese wagon amidst and reduced it to a pile of kindling wood. The six Japanese were thrown from their seats. The wife and one of the children were badly hurt. The child, a boy of ten years, still is suffering from an infected ear.

J. E. Doty, of Los Nietos, who was riding with McCoy at the time of the crash, also was hurt, being badly cut about the head by flying glass. Both Doty and McCoy testified that they could see no lights on the Japanese wagon. They also denied that they were on the wrong side of the road.

Mrs. Minnie Bressel and her son, George, ranchers of the Cypress district, and employers of the Japanese family, told of being called to the scene of the accident. They found the Japanese boy lying unconscious on the highway and the rest of the family, particularly the mother and two of the children, in a state of hysteria. McCoy left the scene of the accident when they arrived.

G. B. Rogers of Brea testified that he was driving directly behind McCoy's machine. The fog was so thick, he said, he had to stop his car and get out occasionally to see whether he was on the road. Rogers said he heard the screams of the Japanese before he could see any of them.

The trial was nearing an end when the question of lights again came up. Mrs. Minnie Bressel then informed the court that she had brought with her two lanterns, which, she declared, she picked up at the scene of the accident.

The glass in one lantern was broken out and the metal was rusty. The other was intact. Judge Cox had Mrs. Bressel's son light the good lantern and then ordered him to go into a far corner of the courtroom and hold it in front of him. The glass in the lantern was badly smoked and the light was very dim.

Judge Cox finally concluded that the accident was unavoidable and the charge against McCoy was dismissed.

**Scores Defendant**

The trial was not held before this time because of the inability of the authorities to locate the defendant. His automobile license registration shows that he lives in San Gabriel, while as a matter of fact he is a resident of Los Nietos.

Deputy District Attorney Roland Thompson scored McCoy for not making a report of the accident to the sheriff's office and for giving the motor vehicle department misleading information as to his correct address.

**EXCELSIOR CREAMERY CO.**

milk, cream, ice cream. Phone 237.

**MILLING BUSINESS INCREASED**

TURLOCK.—Turlock is now milling grain and shipping it in carload lots. A shipment of rolled barley was consigned north by the Turlock merchants and growers, the first carload of grain ever sent out that was raised and rolled in this district. The fact that the grain was shipped to a bay point where it has competed successfully with the big mills and milling establishments of that region, speaks well of the quality of the Turlock product.

**MAKE BIG SHIPMENT**

YUBA CITY.—Forty cars of lug boxes to be used by the peach growers of Sutter county, who have entered into the co-operative plan of having their product packed at Emeryville by the Virden company, have arrived. Arrangements are being made to use an 80-ton wagon scale at the Southern Pacific depot in Yuba city for weighing the fruit.

The Oxford sugar factory is expected to start slicing beets July 30.

**UNIFORM POTATO CROP**

BAKERSFIELD.—Mr. Weishaar's first report on Kern county potatoes says: "Bakersfield potatoes are surprisingly uniform, clean, bright, smooth and well shaped and the yield per acre is greater than under old conditions wherein seed stock was indiscriminately used." All this Bakersfield stock is graded and most of it—shipping-point inspected, resulting in a very uniform quality of stock being shipped by those employing the "shipping point inspection service."

Built to Sustain a Reputation  
Sold to Meet Competition

Sold Only by Dealers

Fordson

The ONE Tractor that has stood the acid test of actual service and sold at a price within the reach of all. \$749.10 delivered to your ranch.

Below is what one of the hundreds of owners in Orange County thinks of the Fordson.

JOHN J. HARRISON  
2040 North Broadway  
Phone 643-J  
Santa Ana, Calif.  
July 12th, 1921.

Messrs. Knox and Stout,  
Ford Agents,  
Santa Ana, Calif.

Gentlemen: It pleases me to be able to say to you, that after using a Fordson Tractor on my 60-acre walnut ranch at Capistrano for a year, I have been able to dispose of the use of one man.

Since owning the place, have always kept two and sometimes three men during the summer months, however find one man has the orchard in fully as good a shape this year as two did last year.

The land is silt soil, quite sandy in spots yet the tractor handles it in fine shape, in fact as easily as a track laying tractor did and much faster.

With a three-furrow laying up tool it is not unusual to prepare twenty acres per day and can cultivate fifteen acres. This seems to me to be good in large trees and on short turns.

The service rendered by your Service Department is the most satisfactory thing about owning a Fordson, as should anything break, can always get you on the job at once and be running again in a few hours.

Sincerely,  
JOHN J. HARRISON.

Boys---Girls---Here's  
\$5.00 In Cash

The boys and girls in The Register's Bicycle Campaign are doing exceedingly well. Several of them are in line for a new Indian Bicycle if they keep the good work going. But The Register also wants to pay them some ready cash. So, it offers this:

To the boy or girl who turns in the greatest number of NEW SUBSCRIPTIONS between noon, Wednesday, July 20 and noon Wednesday, July 27, a cash prize of \$5.00 will be given.

This is in addition to the credit which the solicitor gets toward a new bicycle. This is just an extra reward for earnest work, which The Register wants to give to show its appreciation of the boys and girls who are working.

Every boy and girl has an equal chance to get this \$5.00. It doesn't matter how many or how few subscribers he has turned in to get a new bicycle. If he hasn't even started yet he can get in on this \$5.00 offer. There will be a good many hustlers out after this extra money. The way to get it is to get right into the game and GO AFTER IT.

If you are not familiar with the details of this campaign call at The Register office and ask the circulation man. He wants to help you.

## EVENING SALUTATION

Some times the surging tide sweeps far away,  
The dreams we dream, and hushes laughter gay;  
But when the tide falls back into the sea,  
Go to the shore and search it carefully,  
For up from the mighty ocean's whirl,  
Perhaps the tide may have washed us a pearl.

—Hazel J. Fristad.

## SAME OLD OUTRAGE

In the report of the proceedings of the city trustees, as published in The Register of last evening, we read:

"R. E. Joyce and others protested against acceptance by the city of the sewer recently laid on McFadden street until that street has been replaced in as good condition as it was prior to a trench being dug in the center of the street for the laying of the pipe.

"Complaint was made that the trench had not been properly filled in and that the entire road-bed was covered with earth left by the contractor, with the result that clouds of dust are raised whenever a vehicle passes over the thoroughfare.

"Street Superintendent Edward Dahl was directed to look into the situation."

Same old story. Same old outrage.

If McFadden street is not accepted "until that street is put in as good condition as it was before the trench was dug" it will never be accepted at all.

It simply isn't done.

O, yes, in perhaps one instance out of a hundred, a trench is properly filled in. In perhaps a majority of cases there is some semblance of proper settling of the earth in a fill. But as to anything like general prevalence of thoroughly good work of this kind—

Well, it simply isn't done, that's all.

And who's to blame?

Nobody in particular and everybody in general—mainly, we, the People.

Just you try to fix the responsibility, and you'll see the prettiest little game of tag you ever saw. Some people call it "passing the buck."

The system of municipal government is to blame, and we, the People are to blame for the system.

## SCHOOL YARD PLAYGROUNDS

"The school yard is an educational institution which needs to be converted into a recognized playground as the community center for child life."

This declaration was made by Dr. Clarke W. Hetherington, state director of physical education in California schools, at a convention in Oakland.

The parent-teacher organizations in Santa Ana will applaud Dr. Hetherington's remarks, for he has concisely and forcefully expressed opinions advanced frequently by officers of the local P.-T. A. In fact, it was hardly a month ago that the city P.-T. A. had a delegation before the city council asking for a place in the budget looking toward that very thing.

Hitherto, the usual method of financing summer playgrounds in Santa Ana has been through a campaign in which funds are begged. It has taken hard work on the part of a few to finance a project that is really city business. This year the fund is still shy \$20 of the amount necessary to see the playgrounds program through.

The city that fails to appropriate the play spirit in a child to the child's advantage and upbuilding is overlooking an opportunity to build character. Properly supervised play develops the boy or girl in an understanding of fair play. The youngster who learns in play to play the game on the square is almost certain to play the big game of life on the square. The playground is fundamentally sound in its relationship to character building; it provides the avenue of expression for the boy who is likely to prove that Satan finds some mischief for idle hands to do.

The amount of money required properly to equip two or more school grounds in this city for playground activities is small. The day the schools close, a supervisor should be on the grounds to look after and direct play activities.

The number of children reached through the playgrounds in Santa Ana each summer could be made to reach into the thousands.

And it would be worth many times every dollar they would cost.

## THE FARMER'S NEEDS

City folk who complain that the industries by which they live are starving for capital should be interested in the requirements of the nation's agriculture along the same line. They reach an impressive total.

Data collected by the Department of Agriculture and just made public indicates that, of the farmers of the Middle West, 13 per cent are anxious to build houses, 22 per cent require new corn cribs, 10 per cent new hog barns, 15 per cent poultry houses, 22 per cent silos and 7 per cent structures to house implements and machinery. The farmers of the thirteen central agricultural states are in the market for no less than \$250,000,000 worth of building material—or would be, if they could finance their needed improvements. The worst of it is that all too many of them cannot hope to do so at this time.

It is all very well for the city dweller to poke fun at the agriculturist, to ridicule his legendary whiskers and his store clothes, to blame him for the "buyers' strike" and accuse him of profiteering—but it gets one nowhere, and the farmer is getting tired of it.

Farming is by far the biggest of all America's big businesses, the one foundation upon which we may hope to build a permanent national prosperity. Most of us are conscious of this, in a hazy sort of way. The oftener we think of it, the better it will be for all of us and for our children. Financing the nation's agriculture just now, and all the rest of the time, is about as important as any business there is before the people.

## AGAIN, THAT BUSHEL!

What is a bushel? You might almost as profitably ask, "How old is Ann?"

The Department of Agriculture reports that a bushel of sweet potatoes is 46 pounds in the Dakotas and 60 pounds in Maryland. A bushel of tomatoes is 45 pounds in Oklahoma and 60 pounds in Virginia. A bushel of unshelled green peas is 28 pounds in Massachusetts and 56 pounds in Pennsylvania. There are similar differences all over the country.

There is almost as wide variation in the size of the bushel of produce that is measured instead of weighed, though it cannot be shown so exactly. A bushel measure may be level heaped, and the heaping varies according to the nature of the contents, the local custom and the generosity of the seller.

The U. S. Bureau of Markets has been trying for years to bring order out of the chaos of weights and

measures in this country. There is obvious need of having definite standards applied uniformly in all the states and in every part of every state. There is also need of having all containers brought into some definite relation to the accepted national standards and their contents clearly indicated, so that every purchaser may know what he is getting. California is one of the states taking a lead in this adjustment.

## SERVICE MEN'S DEMANDS

There ought to be no hard feeling about the military bonus, on one side or the other.

The army men have a legitimate grievance still in the failure of the government to do its full share in providing for the disabled service men. That is something that must be attended to. In that, the public is with the army. The veterans have maintained that that is what they are primarily concerned with. They can accomplish it all the more surely now by withdrawing or postponing their demand for a money bonus, and doing it with the explicit understanding that ample provision of every kind is to be made for all the sick or wounded who need it.

The army men also have a legitimate grievance in the dilly-dallying of Congress with regard to unquestionably legitimate measures for their own welfare and the country's. Several excellent plans have been put forward, by both the former and the present administration, to readjust the able-bodied service men to civil life in advantageous ways.

The foremost plan of the sort was one contemplating a great redemption of waste lands, public and private, by the labor and brains of war veterans, aided by public funds. This would have been not a gift, but an investment of public funds, and probably a profitable one. Something of the same kind, in a modified way, is contemplated in one of the provisions of the "adjusted compensation" bill now pending in Congress. Some of the other provisions of that measure are admittedly sound. The only one that has aroused serious criticism and opposition is the cash bonus provision. The veterans may properly insist that, if they renounce their claim to a money payment, the government shall give them assurance of constructive action on their behalf along lines which are not only humanly just but economically sound.

## IMMIGRANTS AND FARMS

The urban population of the United States is growing five times as fast as the rural population. It takes no seer to guess the result within a generation if this continues. The drift to the cities can only mean continued increase in the cost of farm products, and the inevitable increase of unrest, political, industrial and moral, in our overgrown centers of population.

And yet the great masses of strangers within our gates, the immigrants from overseas, are farmers by training and instinct, impelled to their long journey by a true land hunger. The fact that, despite America's wealth in fertile farm land available for cultivation, from one-third to one-half as many immigrants return overseas as arrive every year, is proof that our arrangements for their reception and assimilation are far from perfect.

Through all the years that we have had an immigration problem, neither governmental nor private agency has evolved a practical method of getting the new-comer to the farm land and making him contented there.

The immigrant is instinctively gregarious, accustomed to village rather than isolated life, reluctant to dwell, or make his family dwell, in that loneliness with which too many American farmers and their wives are but too familiar.

Private enterprise will not undertake the work upon the necessary scale. If it is done at all, the government must do it. And few will dispute that it will be eminently worth while.

## America's Next Grand Era

San Bernardino Sun

If history has any uses at all, its chief function is to teach us the lessons of human experience. The history of prosperity is the story of commerce, and the story of commerce is the romance of the seas.

Every empire the world has known has had one foot firmly planted in the ocean; every empire has reached its apex only when it sent its merchants and its merchandise into the markets of the globe, and thus by its industry created fortune. The history of the sea is the history of empire.

When all is said and done, this country of ours is only a strip of land. But in potential strength a giant, and in ambition a genius, for true genius is the flower which springs from the seed of ambition. In its scant years it has swept mightily forward, resting neither by day nor by night, striving with rich enthusiasm to keep level with the magic advance of its fortunes. So many hundreds of thousands of broad acres were to be explored, so many silver rivers to be traced, so many millions of trees to be measured, and always the catalogue of our resources grew longer to challenge our perseverance and stimulate our effort.

But at last the nation stands on its widely separated shores, ready to seek the world. An empire on land, it must become an empire on sea. We must become a nation of seafarers. It is as illogical to scorn the traffic of the seas as it would be to turn over the entire inland transportation systems of the country to foreign agents and investors. Where flies the flag over a good ship there goes American industry at its hundred per cent value; it carries with it the guarantee of national integrity; it enriches its people by a legitimate activity, and it establishes sturdy bridges between the man who makes and the man who uses.

As surely as the star of democracy flies over the land so surely is America's next grand era to be found on the seas.

## Editorial Shorts

The way to disarm is to hang the old musket over the fireplace with the advice and consent of the senate.—Minneapolis Journal.

An English critic says Americans lack imagination. He never heard the average American tell how much better he could run the business than the boss.—Greenville (S. C.) Piedmont.

That fellow down in Louisville who coughed up a four-inch living fish is all the proof we want of the kind of liquor they're using in Colonel Watterson's town.—Cincinnati Enquirer.

Minister threatens to invade golf courses to warn Sunday players of the error of their ways. They'd more likely welcome advice on the error of their plays.—Humboldt Times.

Cincinnati has spent \$3,000,000 on a hospital described as one in which it is a pleasure to be sick. Here is a suggestion for a pleasant and inexpensive summer vacation. Go to Cincinnati and fall ill.—Boston Evening Transcript.

Justice is just what the unjust are anxious to avoid.

And there's the rest cure; but don't take it too often.

## For Her War-Fevered Brow

## Today's Talk

by George Matthew Adams

## RIGHT NOW

The most important business before the world today is—To work, to climb above seeming impossibilities, to solve problems and not to pass them by or to turn your head away from them.

To endure hardship "as a good soldier," to see the good in everything, to smile, not frown—to keep step.

To accept conditions as they are and make them what they ought to be, to live down past error by building a house of achievement above it.

To dare, to risk—to surmount!

To think when non-plussed, to unravel patiently, to replace chaos with order, to create confidence.

To believe, to have faith, to co-operate.

To see in the child the potential man or woman—and in the man or woman the sculpturing of God.

To recognize in failure and success, distinct opposites—the one having nothing in common with the other except as each plays upon the other for something better.

To picture divinity as a ruling force in your life without which you would sink to the level of the beast and become a mere roving thing void of all aspiration and incentive.

To be kind as a proposition worth while, paying dividends in reflected good.

To rise above environment and condition, knowing no master except that which is individual and self-reliant.

To grow through exercise and useful service.

To think of the other fellow in terms of the all. To recognize merit where it lives. To be generous. To expect no more than you give, and to give all that you have.

To be broad and tolerant. To do the thing at hand in a better way than it has ever been done before.

To start better times right where you are—right now!

## The Velvet Hammer

By A. B. B.

J. L. McBride

To be the county engineer is not a cinch and snap. The job cannot be handled by a loose and loony chap. The experts will survey his work with pessimistic eyes, for experts earn their wages who are paid to criticize, and when they finish with the job of shooting their bazoo, the atmosphere is colored with a gloomy haze of blue.

But engineers who, like McBride, can answer with a bang, can put the kibosh on them (won't you please excuse the slang?). There always is another side and sometimes nine or ten, with lots of room for argument, for gesture, voice and pen. The final word is with the bird whose bean is full of sense, who has the tallest talents for convincing other gent's.

In honor of the judgment in his nifty noodle stored, the public schools salute him as the chairman of the board. His practical experience his fellow members prize. He has the brand of common sense which no one can despise. There are a flock of reasons why we're glad to have him here, and glad to pay his wages as the county engineer.

## Worth While Verses

## THE SONG OF THE MYSTIC

I walk down the Valley of Silence  
Down the dim, voiceless valley—alone!  
And I hear not the fall of a footstep  
Around me, save God's and my own;  
And the hush of my heart is as holy  
As hovers where angels have flown!

Long ago I was weary of voices  
Whose music my heart could not win;  
Long ago I was weary of noises  
That fretted my soul with their din;  
Long ago I was weary of places  
Where I met but the human—and sin.

In the hush of the Valley of Silence  
I dream all the songs that I sing;  
And the music floats down the dim Valley,  
Till each finds a word for a wing,  
That to hearts, like the Dove of the Deluge,  
A message of Peace they may bring.

Do you ask me the place of the Valley,  
If lieh far between mountains,  
And God and His angels are there;  
And one is the dark mount of Sorrow  
And one the bright mountain of Prayer.

—By Father Ryan.

## How Is Your Health?

By Uncle Sam, M. D.

Send postal questions to Information Editor, U. S. Public Health Service, Washington, D. C. Give name and address and you'll receive a personal reply.

## WARTS

Q. Will you kindly tell me how to remove a wart from the finger, that has almost extended around the finger nail? I have had this wart on my finger for about two years, and I cut it down even with my finger several times with a razor blade, but it grows back each time and seems larger than before.

A. Ordinary warts are successfully removed by first cutting down and then applying some caustic, such as concentrated nitric acid or trichloroacetic acid. In your case the trouble may no longer be a simple wart, and I would, therefore, urge you to consult a physician, and have him advise you. In some forms of this trouble, X-rays have been used with considerable success.

## THICK LIPS

Q. Please let me know how I can reduce thick lips. I heard tannin will reduce them, but I am afraid to use it. I also have a lot of blackheads in my nose, but I can't get rid of them, so please let me know of some way I get rid of them.

A. There is no form of treatment by which you can reduce thick lips. The application of tannin will do no good.

So far as the blackheads are concerned, send me your name and address, and I will send you a leaflet which may be of service to you.

## THE HANDS AND ARMS

Q. Could you tell me a formula that would develop the hands and arms?

A. The hands and arms can be developed only through appropriate exercises either by the use of dumb bells, Indian clubs, chinning the bar, and other activities which call into play the muscles of the hands, forearm and arm.

## In the Long Ago

—From The Register Files—

## JULY 20, 1907

Engineer H. Clay Kellogg went to Scully's point in the Santa Ana canyon today to determine whether the S. A. V. I. company and A. U. W. company shall put in a submerged dam at that point.

There is talk on the street today that those favoring return of saloons to Santa Ana will vote for the school bonds if school bonds backers will vote to return saloons to Santa Ana.

Henry Sievers, aged 83, of San Juan Hot Springs, old time hunter, is the oldest man to take out a hunting license in this county.

George Forster and Luciana Forster McFadden have taken over the old Forster home at San Juan Capistrano at a price of \$6,000 agreed upon by the five heirs of Marco Forster.

The agreement among the heirs calls for a division of the ranch property, two-fifths to go to Frank and John Forster.

Mesdames Bell, Elliott, Seyster, Classon, Newman, Wiley and Park of the Clover club held their luncheon at Birch park today.

Mrs. W. L. C. Samson, wife of the pastor of the United Presbyterian church, entertained the following girls of her Sunday school class last evening: Misses Grace Patterson, Ruth Collins, Margery McGee, Eva Tidball, Wilma Andrews, Audrey Elm, Mary Henderson, Clara Eggen, Gertrude Ramsey and Hazel August.

Miss Nannie Tedford will sing at the First Baptist church Sunday.

Miss Margaret Alice Williams, popular teacher at Westminster, was married to J. E. Harper, a rancher of Tulare.

Neb Holderman of Tustin, in camp with the guardsmen at San Francisco, has been appointed chief trumpeter of the Second as well as of the Seventh regiment.

## Don't Frighten Children

Syracuse Herald

Little Agnes Kathleen Hughes of Millville, Pa., is hopelessly paralyzed at the age of 6 years because a "friend" of her family told her there was a bogeyman in a dark room into which the child was going. Terror sent this child into hysterics and from then on she was frightened by every shadow until gradually fear induced paralysis.

It isn't a pleasant thing to read, is it? Just when her life should be happiest by every divine right of childhood, some foolish person thoughtlessly frightened her. It is the old story. Every child, it seems, must be frightened because that is such a simple way to teach them not to do something it is natural for them to do. Frightening a child is the most unspeakable cruelty in the world, not merely because of its present effect, but because its effect is lasting. Nerve specialists tell us that back of many fears in grown persons is some fright of childhood. They may forget the fright, but the subconscious fear is always there.

All through life the bogeyman of childhood follows us.

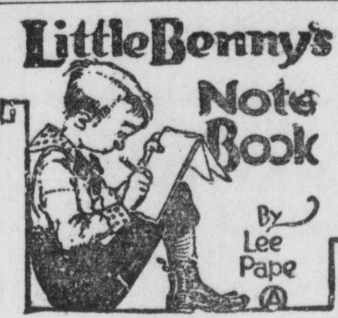

It is an awful thing to kill the

faith of a child. It is a heartless thing to frighten a child. Children naturally are not afraid. They have faith. If we could leave them as God made them they would be happier all through life, happier and better, but instead of using common sense, instead of remembering what fright did to us in our childhood, we must conjure up ogres and bogeymen and even threaten them with the kindly policeman on the beat.

The bogeyman of childhood, however, is not the only bogeyman. There are bogeymen in every office, the bogeymen of business, bogeymen of industry, of labor, bogeymen of society, of civic life, of progress. Business men are held back because of their own bogeymen. Progress is interrupted because of bogeymen. Someone is always saying: "I'd do that but I'm afraid—" They bogeyman again.

Yes, "the bogeyman will get you if you aren't careful."

Isn't it about time we went out and got the bogeyman, once and for all? Anyway, let's take the bogeyman out of the lives of children. Let's kill him for the next generation.

## THE DANGER SINE

A Play

Scene, outside of a 33 story building.

First sitizen. G, look at all the people wawking out in the street instead of on the pavement. Wats they doing that for?

2nd sitizen. Dont you see that sine says Danger?

First sitizen. I see the sine but I don't see the danger.

2nd sitizen. You must be one of these people want to see everything.

First sitizen. Sure, seeing is believing, thats me. Whoever owns this 33 story bilding must of had a old Danger sine and jest stuck it up so as not to wawt it.

2nd sitizen. Holy smooks but you got a suspicious nature.

First sitizen. Well do you dare me to wawk rite past jest to prove that aint any danger?

2nd sitizen. I dont dare you but Id like to see you.

First sitizen. Well then all you got to do is watch.

2nd sitizen. G wizz hes a quarter ways over already and nothing hasent happened yet. Now hes still ways over and the danger is still all on the sine. Now hes 2 thirds ways over, wats you know about that?

Now hes 7 eights ways over, well Ill be darned. Hay hay, look out, heer cums a load of bricks off the roof.

First sitizen. Its too late to tell me now. Im underneath of them.

2nd sitizen. Is your life insured?

First sitizen. It certeny is.

2nd sitizen. Thats good.

The end.

## Time to Smile

## HIS CATCH UNCERTAIN

Tommy had been playing truant from school, and had spent a long, beautiful day fishing. On his way back he met one of his young cronies, who accosted him with the usual question, "Catch anything?"

At this, Tommy, in all the consciousness of guilt, quickly replied: "Ain't been home yet."

## SPOILING FOR FUN

"How is the traffic system in this town?"

"Like the traffic system of every other town."

"Well."

"A constant irritation to motorists who want to monopolize the streets and lose their tempers every time a large, imperturbable trolley car gets in their way."—Birmingham Age-Herald.

## CONSERVING WORDS

"Good morning, judge," chirped the genial speaker as he stepped before Judge Hackett, of Tacoma. "How are you this morning?"

"Fine—\$25," said the judge.—Boston Transcript.

## A CALL FROM HOME

"I'd like to see Mr. Wadeigh."

"He's listening over the telephone," said the discreet secretary.

"Listening?"

"Draw your own inference, sir. I won't say in so many words that Mrs. Wadeigh, who is at the other end of the wire, is doing all the talking."—Birmingham Age-Herald.

## FEMININE ACCOUNTING

"My wife made out an itemized expense account for last month," said Mr. Dubwaite.

"Could you learn from her statement just what she bought?"

"No. Most of her purchases were listed as 'Etc.'—Birmingham Age-Herald.

## RECALLS THE PAST

"You'll have to rewrite this scenario," said the movie producer.

"You make the leading character a waitress and our five-thousand-dollar-a-week star refuses to play."

"Why?" asked the playwright.

"She used to be one."—Birmingham Age-Herald.

## JAZZ EFFECT

"I like your jazz orchestra," said the proprietor of the beanery.

"Huh?"

"But I guess we do have more rattling of dishes than any other joint in town."—Louisville Courier-Journal.

## Bear Stories for Bedtime

## CHAPTER 92

## BILLY BEAR'S ROMP WITH THE LITTLE CALF.
